

The Finest Indonesian Made OF NATURAL SWEETENER

COCONUT SUGAR

<https://milenoindonesia.com>

INDONESIAN TRADING COMPANY

ABOUT US

Inheriting vast and fertile land, Indonesia provides the widest variety of agricultural products. Coconut is one of its most treasured outputs. Currently, Indonesia has millions of hectares of land ready for coconut plantations. With global food trends shifting to a healthy and balanced lifestyle, we are passionately tapping into its potential. Organic and natural products are greatly in demand, challenging agricultural practices by reducing pesticide and chemical use to zero. This is the challenge all product ranges are facing, from production to supply chain. We are directly cooperate with the local farmers group to produce and distribute premium, organic, and natural agricultural products.

Our business focuses on trading and exporting products from nature's goodness, directly to you. We work professionally by maintaining grand scale production with the most stringent and standardized hygiene system.

COCO PEAT BLOCK

Coco Peat is the non-fibrous, spongy, light weight, corky material that holds together the coir fibre in coconut husk.

There are 2 types of coco peat, the low EC (washed) and high EC (unwashed). The low EC coco peat is used as a growth medium for various kinds of plants while the high EC coco peat is used as animal bedding absorb animal waste so the farm is kept clean and dry.

	Low EC Block	High EC Block
EC	< 0.5 mS/cm	> 0.5 mS/cm
Size & Weight	30 x30 x12cm 5kg	30 x30 x15cm 5kg
Moisture	10% - 15%	10% - 15%
pH	5.2 to 6.8	5.2 to 6.8
Compression	5 : 1	5 : 1
Expansion	1block 70 - 85 liters	1block 70 - 85 liters
Packing	Blocks in Pallet, 24 MT in 40ft Container	Blocks in Pallet, 24 MT in 40ft Container
Supply Ability	520 MT / month (22x40Ft)	360 MT / month (15x40Ft)

COCO PEAT POLYBAG

The compression ratio of cocopeat polybag is 2 : 1. The cocopeat's structure is pack as a compress.

It can make the cocopeat decompose within ten years of use. This is very helpful because the utilization of cocopeat can last longer.

Low EC & High EC Polybag

EC

Low EC < 0.5 mS/cm , High EC > 0.5 mS/cm

Weight

28 – 30 Kg/bag

Moisture

Low EC 10% - 15% , High EC 35% - 45%

pH

THE FINEST INDONESIAN MADE

COCO/COIR ROPE

Coir rope or coco rope is an eco-friendly product made from waste coco fiber. This coco fiber is then twisted using a machine to become a coir rope.

Coir rope used to make a variety of products, such as brushes, floor mats, mattresses, doormats, and rope for use in boat and house construction. This coir rope has several variations of winding, or often referred to as ply. Generally, many ropes use 2 ply.
