# Company Profile

We work under a private company, that has been one of the leading coconut products, we believe that a customer needs a reliable partner in order to have a trusted transaction.

We are specialize in coconut products. We believe with Indonesia as one of the larger plantation of coconut tree, we will benefiting our costumer to get the best quality of coconut products as well as helping the Small and medium-sized enterprises (SMEs) which most are still a home industries. Until now we have 3 main coconut products, such as Virgin Coconut Oil (VCO), Refined, Bleached and Deodorized (RBD) Coconut Oil, and Coconut Fatty Acid Distillate (CFAD). However, With a greater vision to increase of the value of coconut and improve strategic distribution and consumption of coconut-based products at various regions around the country.

# OUR KEY FEATURES

## INTEGRITY

Integrity means telling the truth, keeping our word, and treating others with fairness and respect. Integrity is one of our most cherished assets. It must not be compromised.

## QUALITY

Quality is exhibited in many ways by selling and supporting products and services that delight customers, establishing a work environment, and delivering financial results that meet investor expectations.

## COMMITMENT

Commitment is important where we will continue to provide the best to our customers and investors all the time. Our opportunity to serve should be viewed as a privilege that is not to be taken for granted.

## INNOVATION

Innovation means inventing, designing, and developing products and services that have high appeal in the marketplace and strengthen customer preference for the Universal Coco Indonesia project.

# OUR PRODUCTS

## RBD CNO

RBD coconut oil is a type of coconut oil that is 'refined, bleached, and deodorized.' This is one of the most common types of coconut oil with various applications from cooking, beauty uses, and more.

## VCO

Virgin coconut oil (vco) is extracted from fresh coconut milk and is 100 percent natural. It is unrefined, unbleached and cold pressed. Unlike other coconut oil that is extracted through heat, vco does not possess that latik odour, but fresh aroma of coconut oil.

## CFAD

Coconut Fatty Acid Distillate or CFAD is the by-product collected from oil refineries which contains lauric fatty acid as major saturated fatty acid. The dark in colour oil present in liquid form is highly demanded for manufacturing of toilet soap.
