ABOUT COMPANY

PT Golda Charcoal Indonesia is a manufacturer, supplier and trading company. We engaged in the production of charcoal briquettes using high-quality coconut shell raw materials.

Established in 2022, our plant is located in Bogor and Magelang. We have built a solid reputation as a reliable and trusted company of charcoal briquettes products. Our products are recognized by our customers for their high quality. We always try to improve our products by continuously developing production technology and using raw materials that are always updated.

Production capacity 10 tons per day

VISION

To become a leading briquette manufacturer in Indonesia, providing high-quality and affordable energy-saving solutions for the community.

MISSION

- To provide high-quality, safe and environmentally friendly briquette products.
- To provide satisfactory customer service by valuing and meeting the needs and expectations of customers.
- To be a continuously growing and innovating company in line with market needs.

OUR STRENGTH

- **HIGH-QUALITY PRODUCTS**

The company produces high-quality briquettes made from coconut shells that meet the needs and expectations of customers.

- **SKILLED AND DEDICATED WORKFORCE**

The company has a team of highly skilled and dedicated employees who are committed to producing the best quality products.

- **STRONG SUSTAINABILITY FOCUS**

The company prioritizes environmental conservation and sustainable practices in all aspects of its operations.
