

MACAMA

PT MANDIRI CIPTA KAMA (MACAMA EXPORT)

COMPANY PROFILE

INTRODUCTION

PT Mandiri Cipta Kama (MACAMA Export) is an Indonesian limited liability company that assists Indonesian farmers in the worldwide production and exportation of high-quality Indonesian coconut and coffee derivative products. Our products are coconut charcoal briquette, cocopeat, cocofiber, and also coffee.

As Indonesia is one of the world's top countries that produce coconut & coffee products, alongside our farmers, we intend to bring our products to the worldwide market.

We are certain that our high-quality products would be valuable and also useful commodities for our worldwide customers. We strive to always provide our customers the best products to meet their satisfaction and expectation by carefully ensuring the right performance in every aspect of our production process from raw material to the final product.

VISION

To be the leading coconut and coffee derivative products producers/exporters company in Indonesia

MISSION

- ◆ Assisting Indonesian farmers in producing high-quality and sustainable products that fulfill international standards
- ◆ Providing clear and useful information on our products to our partners/buyers as well as any assistance needed throughout the process
- ◆ Maintaining a good relationship with our stakeholders, including our farmers and partners/buyers.

OUR PRODUCTS

Coconut Briquette

Coconut Charcoal Briquette is a briquette charcoal with coconut shell as the raw material. One of the main functions of Coconut Charcoal Briquette is for shisha or hookah burner. Moreover, people also use the lower grade for barbecue purposes.

Our briquette has been exported to some countries in Europe, Asia, and the Middle East.

Coco Fiber

Coconut fiber (Coir) is a natural fiber extracted from the outer husk of coconut, Coir is the fibrous material found between the hard, internal shell and the outer coat of a coconut.

The use of Coir is in the products such as floor mats, doormats, brushes and mattresses. So far our coco fiber has reached China.

Coco Peat/Pith

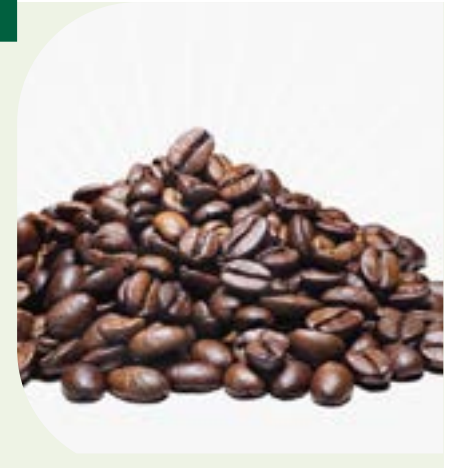

Cocopeat is a multi purpose growing medium made out of coconut husk. The fibrous coconut husk is pre washed, machine dried, sieved and made free from sand and other contaminants such as animal and plant residue. Cocopeat is a very good alternative to traditional peat moss and Rock wool. Australia, Brunei Darussalam, Vietnam, and South Korea are the countries that have imported our Coco Peat.

Coffee

Some coffee-growing regions in Indonesia have also become popular. As a result, with every different region comes with their special beans with different rich taste.

As of now we provide several types of coffee which includes: Arabica, Robusta, and Luwak coffee.

WHY CHOOSE US?

- Our responsibility to provide our highest quality and sustainable products for you.
- Our commitment to assist you with clear and useful information needed from us concerning our products.
- Our experience in exporting our products to countries around the world (showing map)
- We could provide samples of our product, for your further consideration.
