PT. Pratama Spices Indonesia is a family business with the main commodity as the shallot since the 1970s. We started being a humble shallot farmer in Probolinggo, East Java, Indonesia, when in 2008 foreign buyers saw the quality of our shallot.

Therefore, 2008 was the year we got our first orders from abroad with a capacity of 50 tons to 80 tons of shallot a month. Following the growth and demand of our loyal buyers for spices commodities, in 2020 we were expanding our product in spices with export quality.

We are cooperating closely with local experienced farmers to produce high-quality products and competitive prices to benefit our loyal buyers. We believe in integrity and commitment.
