

Royal Insan Mandiri is a company engaged in agriculture and focuses on coffee beans. We provide the best types of coffee from Indonesia based on the regions in Indonesia according to their type, be it the best Arabica coffee beans in Aceh gayo, the best Robusta coffee beans in Lampung and Temanggung, as well as the best Liberica coffee beans originating from the Jambi and Tangse regions. We provide various types of coffee beans originating from Indonesia by inviting farmers to engage directly with us.

The coffee beans that we distribute are beans that come from the best coffee producing areas and are of certain quality, and more importantly are transparent with farmers, sustainable and educate farmers from traditional to industrial.

Our company has also supplied to several cafes in Indonesia and now we are trying to develop to sell to various countries and facilitate coffee roasters in various countries to enjoy the best coffee from Indonesia.

We try to help Indonesian coffee farmers under the name of Indonesian Coffee Farmers Union to meet with coffee roasters around the world whether on a large or small scale. We focus on shared value, sustainable supply, and advancing Indonesian coffee farming.

- Shared value – We drive efficiency and equity across our supply chain.
- Sustainable supply – We build a sustainable supply chain that meets the needs of grills & manufacturers.
- Advancing coffee farming – We work to advance Indonesian coffee farming and try to develop from traditional to modern.
