PT KOSMETIKA GLOBAL INDONESIA is a manufacturing company that was established in 2018. PT Kosme is engaged in cosmetics, skin care and body care. Formed and developed by experienced experts and supported by young employees who have creativity and high enthusiasm.

PT Kosme continues to develop and grow with quality flagship products and supported by premium services for its customers. PT Kosme has met the production standard requirements and has passed the production feasibility test from BPOM. As well as having international equivalent Standard Operating Procedures in the production process, packaging, to storage of production results.

Every employee at PT Kosme is an expert in their respective field. Together as a team, we ensure that customers are in the right place where they can get the best cosmetic or skin care products. Our team ensures that customers get the best service on every detail of the products produced at PT Kosme.

About Us

Our Strength

PT Kosme always prioritizes quality for customer desires, we provide facilities through an experienced Research and Development (RnD) team. We have good production room facilities in terms of processing and packaging room facilities that are technologically advanced. Our Production Room also has CPKB (Good Ways of Making Cosmetics) standards. PT Kosme is also committed to providing MUI halal assurance certification for products that have been produced.

1. Competitive Price

Through the one-stop process that we provide as customer service, you will get very competitive prices. We can control all production costs to packaging at a cost that can be mutually agreed upon for the customer in running the business.

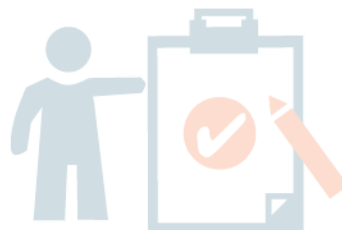

2. Use of Safe Materials

PT Kosme complies with all government regulations related to cosmetic products that are safe to use. We guarantee safety by supplying imported CoA and MSDS certified materials. We also ensure that all ingredients have been tested and approved by the Food and Drug Supervisory Agency (BPOM).

3. Professional Research Team

PT Kosme has an internal research team consisting of experts and professionals in the chemical industry to create new products and conduct sampling tests for raw materials and final products.

4. Strict Quality Control

PT Kosme also has a special QC team tasked with monitoring the entire production process and ensuring the process is carried out according to CPKB standards.

6. Avoiding Cross-Contamination

Each room is separated by a partition to avoid contamination from one area to another due to the movement of raw materials and finished materials. Separation of the raw material space from the process room through the transit room. Stainless steel walls are used in the powder chamber for easy cleaning using a powder vacuum.

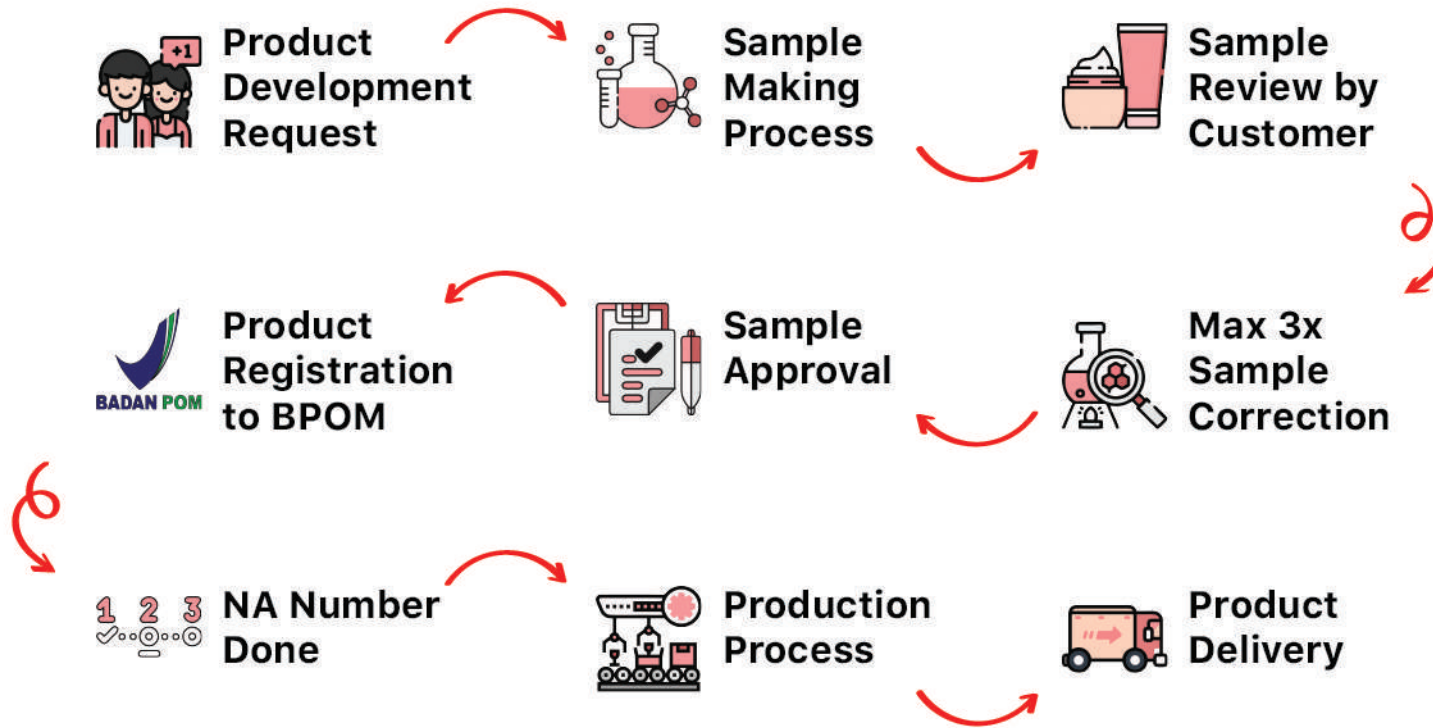

7. Waste Handling System

We implement a comprehensive waste management system in accordance with the regulations set by the Ministry of the Environment. Solid waste is managed by a professional third party. As for liquid waste, we process it until it is safe for the surrounding environment.

Development Process

Premium Services

BRAND PATENTS

Registering the Copyright of a brand is important to protect the creative assets that we have. We provide services to help register your brand for patenting with a fast process.

COSMETICS REGISTRATION

Permits obtained by brands/brands from BPOM as legal cosmetic products must go through a process to certify that the product is feasible and safe to use. After going through the product sample process, we help you to register your product with BPOM.

LOGO & PACKAGING DESIGN

Product packaging design is one of the important factors to strengthen business branding and be a differentiator between your brand and competitors. We have a design team who are experts in their fields to help you design logos, packaging and promotional materials for your brand.

PRODUCT KNOWLEDGE

This service aims to help customers fully understand their products and as a marketing strategy to increase sales. The education we provide starts from product knowledge to marketing strategies.
