OUR COMPANY

Natural Coco Land managed by PT. Bumi Makmur Investama is a leading supplier of Indonesian agriculture products, primarily coconut products and derivatives. We are company that engage in manufactures various coconut products with high-quality materials. Natural Coco Land is driven by a strong set of values that defines our company: Integrity, Quality, Empowerment, and Impact.

We work closely with Local farmer in Java Island who has in-depth experience and knowledge in these subjects to produce high-quality products by using the environmental-friendly method. Moreover, We are dedicated to serve our customer, Farmer and Nature.

Vision

Natural Coco Land's vision is to become the best and leading company in the coconut product and derivatives industry from Indonesia that provides added value for Customers, Farmers, Partners, Employees and brings beneficial value to the Social Communities.

Mission

01

Cooperating with local farmers to provide the finest and freshest products

02

Conduct regular monitoring to maintain the quality of the products

03

Delivering professional services to Customers

04

To improve the well-being of local Indonesian farmers through organic farming and fair trade

ARENGA PALM SUGAR

Arenga palm sugar, also known as gula aren, is a type of sweetener derived from the sap of the Arenga pinnata tree. It is commonly found in Southeast Asia, particularly in Indonesia, and has been used for centuries as a natural sweetener and an ingredient in traditional medicines. Arenga palm sugar is considered to be a healthier alternative to refined sugar as it is rich in nutrients and has a low glycemic index, which means it is absorbed more slowly by the body and helps to regulate blood sugar levels.

we are proud to be working in cooperation with local farmers who have years of experience in the cultivation and processing of Arenga palm sugar. We use traditional methods to extract the sap from the trees and process it into sugar, which helps to maintain its health benefits and provides a special and unique taste and smell.

Product Specification

Product Type	: Organic Arenga Palm Sugar
Ingridients	: 100% Arenga Pinnata Sap
Moisture Content	: Max. 5%
Particle Size	: 16 Mesh
Color	: Golden Brown
Shelf Life	: 12 Months
Taste	: Sweet soft caramel taste
Smell	: Unique sweet brown sugar
Application	: 1:1 ratio sugar cane crystal substitute, both in volume and weight
Packing Detail	: 25 Kg Paper bag with inner transparent plastic

ORGANIC COCONUT SUGAR

Natural Coco Land coconut sugar is made from 100% pure coconut sap harvested from a superior coconut tree from Java Island. Our coconut sugar is traditionally produced to get perfection's sweet and extraordinary aroma.

Our coconut sap sugar undergoes very minimal processing which aims to maintain all nutritional values such as magnesium, potassium, zinc, iron, B vitamins, and amino acids which offer a natural and healthy sweet tropical alternative.

Coconut sugar has a low glycemic index which gives you the same sweet satisfaction but without the inherent health risks or the high glycemic rating which causes spikes in blood sugar that leads to diabetes, obesity, cardiovascular diseases, cancer, and a host of other problems.

Product Specification

Product Type	: Organic Coconut Sugar
Ingridients	: 100% Coconut Sap
Moisture Content	: Max. 3%
Particle Size	: 16 Mesh
Color	: Golden Brown
Shelf Life	: 6 - 12 Months
Taste	: Sweet soft caramel taste
Smell	: Unique sweet brown sugar
Glycemic Index (GI)	: Lower than 35
Application	: 1:1 ratio sugar cane crystal substitute, both in volume and weight
Packing Detail	: Paper bag with inner transparent plastic

SEMI-HUSKED COCONUT

Semi Husked coconut is raw and pure coconut which the fiber peeled off. Our semi Husked coconut is freshly hand-picked within 60 days, with an entirely light brown color and enriched by the sweetness and thickness of coconut flesh.

Coconut contains several valuable contents to the human body, such as saturated fat, protein, minerals, and B vitamins. In addition, coconut is high in manganese content, which is beneficial for human bone. It also contains iron and copper that help to form red blood cells. Therefore, semi Husked coconut was massively consumed as the raw material of various products, such as desiccated coconut, coconut oil, coconut cream, coconut water, coconut shell charcoal, and many more.

Natural Coco Land is one of the leading suppliers that use Husked coconut as the raw material for further production processes. However, as the demand for this product is increasing, we are willing to be your partner in providing the best quality of semi Husked coconut.

Product Specification

Product Type	: Semi Husked Coconut
Variety	: Matured Coconut > 60 days age
Color	: Brown/Light
Grade	: A / B / C
weight	: 1 Coconut = 800-1200 Grams
Packing Detail	: By Request
Packing Detail	: Bulk packaging in super sack for granular type (20 kg and 25 kg)

COCOPEAT BLOCK

Cocopeat block is the natural fibre from coconut coir that has been pressed and shaped into cubes or blocks bar. Cocopeat block used as planting media as an alternative to the soil, which has a similar texture to soil but has ten times better in storing and retaining water. Therefore, the plant and its root will not be easy to dry out.

Cocopeat is also an excellent oxygenation property, which is important to the health and development of the roots of the plant. It has a slightly acidic ph level, which is perfect for alkaline garden soils. Thus Cocopeat is an eco-friendly and perfect solutions as a planting media.

High Electric Conductivity

Product Type	: Cocopeat Block
Electric Conductivity	: 1.2 mS/cm
Moisture Content	: Max. 18%
Dimension	: 30 x 30 x 15 cm
Weight	: 5 kg
Filters	: 6 mm
Expansion	: 45 - 50 liter/block
pH	: 5.6 - 6.8
Packing Detail	: Plastic Wrap

Low Electric Conductivity

Product Type	: Cocopeat Block
Electric Conductivity	: 0.5 mS/cm
Moisture Content	: Max. 18%
Dimension	: 30 x 30 x 15 cm
Weight	: 5 kg
Filters	: 6 mm
Expansion	: 45 - 50 liter/block
pH	: 5.8 - 6.8
Packing Detail	: Plastic Wrap

COCONUT FIBER

Coconut Fiber (Cair) is a natural fiber extracted from the outer husk of coconut (Mesocarp), which is usually considered as a waste. But in fact, coconut fiber provides several benefits that can be used as raw materials in various industries, such as ropes, mats, brushes, brooms, mattresses, car seats, and many more.

Coconut fiber contains of high lignin content and low cellulose content. Therefore it is resilient, strong, and highly durable. With the benefits and quality provided, the demand for coconut fiber increasing over the year. Coconut fiber is an environmentally friendly material that lights in color, usually gold-yellow (from unripe coconuts) or brown (from ripe coconuts).

Natural Coco Land is one of the leading suppliers that provide high-quality coconut fiber from fresh mature coconut husks exported worldwide to supply various industries and needs. We continuously do the quality control of our finished foods to maintain the value to our customers

Product Specification

product Type	: Coconut Fiber (Cair)
colour	: Golden Brown
Moisture	: Max. 17%
Fiber Length	: 5 - 25 cm
Impurities	: +/- 5% Max
Weight	: 100-110 kg/bale
Packing Details	: Strap for each bale

COCONUT CHARCOAL BRIQUETTE DIAMOND

Coconut charcoal briquettes are compact blocks made from coconut shell charcoal. Our charcoal Briquette is made of granular coconut shell that is crushed and molded using a natural binder. We provide high-quality 100% coconut charcoal briquettes for food industries, barbecue, stove fuel, metallurgy, etc.

Natural Coco Land is committed to providing high-quality coconut charcoal Briquette with high carbon content. The heat generated will be maximized with less ash residue

Product Specification

Component	:	100% Coconut Shell Charcoal
Grade	:	Diamond Grade
Moisture Content	:	Max. 5%
Ash Content	:	Max. 2.5%
Ash Color	:	Natural Grey Color
Fixed Carbon	:	Min. 80%
Calorific Value	:	Min. 7800 KCal
Odor	:	No Odor
Burning Time	:	2.5 hours
Drop Test	:	Good (Strong)
Cracking	:	No Crack
Packing	:	Inner Plastic + Inner Box + Master Box
Shapes	:	

cube
