

# Company Profile

[WWW.EXPLORECOCO.ID](http://WWW.EXPLORECOCO.ID)

# About Us

explorecoco producing 100% recycled coconut shells that make charcoal burned longer, cleaner, higher temperature than regular charcoal briquettes. Currently we have capacity to delivering 100 tons per month to ensure consistent supply of high quality coconut charcoal briquettes

## ***Vision***

Leading world wide supplier in coconut production

## ***Mission***

- Serving customers from all over the world and commit to exceed our customers' satisfaction and expectations.
- Improving local and global market share

# Why Us?

## Extended Burning Time

The Charcoal is dense, meaning you can get more than 120 minutes of burning time

## Natural

No Trees are cut down to produce our charcoal. Only coconut shells and food grade tapioca starch as a binder. 100% organic, no chemicals and no additives

## Less Ash

Due to purity, our production only produce about 2.0 - 2.2%. This prevents the clogging and reduced airflow charcoal briquettes may cause

## Neutral Flavour

explorecoco has virtually no smoke and is flavor neutral because it is originally made from 100% coconut shells

# Product

***Charcoal  
Briquette***

***Copra***

***Coco Peat***

***RBD Coconut Oil***

# Type of Briquette

**1. Cubes**

**3. Hexagonal**

**2. Circle**

**4. Air Flow**

# Briquette Specification

- Ash Content : **2.0 - 2.2 %**
- Moisture : **<5%**
- Volatility : **>12%**
- Fixed Carbon : **>78%**
- Gross Calorific : **7200 Kcal/kg**
- Ash Color : **white**
- Burning time : **>2 hours**

# Coco Peat

- Quality : **Premium**
- Twice Sieving : **Bottom 0.5 mm and Top 6 mm Mesh**
- Drying : **Machine Drying**
- Moisture Content : **20%**
- PH : **4.6-6.8**
- Electrical Conductivity : **max 0.5 (Low EC) or Above 0.5 (High EC)**
- Block Size : **30 cm x 30 cm x 12-15 cm**
- Block Weight : **5 kg (11 lbs) +/-10%**
- Compaction Ratio : **5:1**
- After Expansion Wet Volume : **+/-75 liters/5 kgs**

# Copra

- Ingredients : **Fully dried matured coconut**
- Color : **Dark brown (outside), brown (inside)**
- Drying : **Machine Drying**
- Moisture Content : **<7%**
- Oil Content : **60-75%**
- FFA : **< 0.5%**
- Smoke Level : **< 95%**
- Combustion Rate : **< 95%**

# RBD Coconut Oil

- Odor : **Odorless**
- Color : **White to Yellowish**
- Melting Point : **23 - 26 Celcius**
- Specific Gravity : **0.9 - 0.911**
- FFA as Lauric (%): **0.0266**
- Peroxide Value (Meq/Kg) **0.031**
- Iodine Value : **8.9**
- Moisture & Impurities : **0.056**
