Competitive **Advantages**

## VARIOUS SIZES

Accelera has about 400 sizes available with tire diameters as small as 14 inches and as large as 24 inches, and tire widths as narrow as 155 mm and as wide as 325 mm, we make a tire for every application

Competitive **Advantages**

# TIRE DESIGN

Our tire patterns are designed to maximize handling and traction while increasing tire life. Each tire is manufactured using our in-house technology to ensure the highest standard of quality and performance.

accelera  
#SPEEDnSTYLE

FORCEUM  
#DRIVEWITHPRIDE

Competitive **Advantages**

# TECHNOLOGY

There are a lot of different ingredients, machines, and technologies involved, but here's the rundown on ours: Accelera tires are made in Indonesia using our in-house custom technology. Developed especially for drivers that care about the role of tire technology in enhancing vehicle performance and safety, Accelera tires offer durability, handling, and traction without compromising on tire life.

Competitive **Advantages**

# PERFORMANCE

Accelera tires use a silica compound to achieve grip and prevent aquaplaning on wet conditions. Accelera tires are designed to reduce noise levels and carbon dioxide emissions to minimize rolling resistance and save energy. The double, strong steel belt tied by a cap layer adds a strong grip on uneven road surfaces while staying stable during high speeds. The tire has a strong, flexible sidewall to absorb shocks on rough surfaces. Most importantly, the Accelera technology automates all aspects of the tire production process, so you get a perfect tire, every time.

Competitive **Advantages**

# QUALITY

Accelera tires provide the assurance of quality, safety, and compliance with environmental regulations with these certifications: DOT (USA), E MARK (Europe), INMETRO (Brazil), GSO (Gulf), SNI (Indonesia), UKAS (UK).

2018

- Studded winter tyre launched (X-Grip Studdable)

2019

- Professional off-road tyre launched (Badak X-Treme)

2020

- Coarse Terrain Tyre (Omikron C/T) launched
- Support the use of clean energy by using Photovoltaic (PV) systems and install solar panels in factories
- Build a Nitrogen plant at PT Elangperdana Tire Industry

2021

- Production target in 2021 : 5 million tyres produced

2022

- EV Tyre Launched

2023

- Drag tyre launched (Accelera 651 Sport Drag )

MACHINERY & INFRASTRUCTURE

**accelera**  
#SPEEDnSTYLE

**FORCEUM**  
#DRIVEWITHPRIDE

## MACHINERY & INFRASTRUCTURE

The latest additions of our production machines include the latest version of automated curing machines, tire-building machines, cutting machines and quadruple-extruding machine with the current running capacity of 5 million tires / year. Every single tire produced is database recorded by application of barcode system.

Apart of those productions machines, we also have machineries for initial quality control purposes (balancing and uniformity check). Fully qualified, experienced inspection staffs for quality control processes are also in charge in terms of visual, appearance check of 100% tires.

**accelera**  
#SPEEDnSTYLE

**FORCEUM**  
#DRIVEWITHPRIDE

## MACHINERY & INFRASTRUCTURE

In the support of productions, we have compounding laboratory and tire performance testing lab to make sure the quality and performance of our product is up to the highest achievable standards.

In regards of quality, our plant is in compliance with the most updated ISO 9001:2015, which assures our Quality Management System. The testing lab is also in compliance with ISO 17025:2017 for testing laboratory certification.

OMIKRON A/T

### ALL TERRAIN SUV TIRE

- The Interlocked Blocks**  
The combination of center and intermediate interlocked blocks with Z sipes assures comfort driving on highway.
- Block's Stepped Edges**  
Enhance traction in "Off-road" surface.
- Shoulder Blocks with Z sipes**  
Provide excellent cornering. The connecting bars prevent irregular wear and enhance dry braking power.
- Two Main Grooves Combine with Notched Ones**  
Clears water footprint area effectively to eliminate hydroplaning and maintain wet braking.

### SUV TIRE

**Attractive Tread**  
Specifically designed to have an attractive wide cross-section, gives a longer service life, and provides superior traction in all-terrain.

**Multiple Edge Block**  
Gives an aggressive impression, low noise, ensures safety, and a comfortable adventure. It also resists retention and slips on rocks.

**Dynamic Wide Grooves**  
Maximizing mudflow easily, the model is actively designed to maximize bites on road surfaces under various conditions.

### M / T EXTREME

**Open Primary Block Tread**  
Big tread block with unique tread arrangement ensures a maximum tread contact area and provide maximum traction on slippery terrains such as rock, clay, and loose sand.

**Secondary Tread Block and Diamond Shaped Tread Sisewall**  
Work together to give extra traction, enhances mud digging as well as a self-cleaning capability.

**Aggressive Sidewall**  
Enhancing side bite traction on extreme off-road terrain.

### MUD TERRAIN SUV TIRE

**Unique Tread Blocks with Wide Center Sipes**  
Increase off-road traction.

**Open Scalloped Hump Tread**  
Offers superior tracking on off-road surfaces; situated between block slots to drain water rapidly as well as throwaway trapped rocks, mud and other foreign material

**Deep Tread Design**  
Allows strong hold on ground surfaces and maintains grip on loose surfaces.

**Reinforced Wide Lateral Groove**  
Open Center Groove which removes thick mud faster but remains protected with reinforced blocks even in the most extreme terrain

**Secondary Winged Tread Block**  
Work together with primary block to give extra traction and improve mud digging as well as rocky terrain.

**Aggressive Interlock Block Sidewall**  
Improves side-bite traction and removes adhering mud in extreme off-road terrain.

**BINTURONG PRO X PROFESSIONAL OFF-ROAD TIRE NEW PRODUCT**

31X10.5-15 LT 6PR	110N
-------------------	------

**Three Main Ribs**  
Allow riding stability on highways while multi adaptive sipes, minimize rolling resistance & improving braking.

**Dry Side Pattern**  
With rigid block ensures good cornering while strengthening line-trace ability.

**Wet Side Pattern**  
With two wide grooves and multi-sipes, it clears water rapidly to overcome aquaplaning while the variable pitch minimizes pattern noise to deliver comfort.

# accelera HIGH CAPABILITY

Accelera is made with high technology, continuous research and development so that Accelera is stable and capable in all road conditions.

# ABOUT 400 SIZES AVAILABLE

One of the advantages of Accelera is the large number of sizes available, ranging from 13 inches to 24 inches rings, as well as varying tread widths and profiles.

# PERFORMANCE, ELEGANCE, SAFETY

At PT Elangperdana Tyre Industry, we're all about performance, elegance, and safety. We've found the perfect balance between tire performance, traction, and tread life so you don't have to pick one over the other. Our tires are made for passenger, light truck, SUV, & 4 x 4 vehicles, but where we truly shine is our performance tire line-up.
