Our Product

Cocopeat

PT. Cipta Hassdy Indonesia as an Indonesian cocopeat exporter provides cocopeat or coconut peats that are ready to be shipped to various countries. To maintain consumer confidence, the quality of the cocopeat we produce is of high quality and is in accordance with the quality requirements of the targeted market.

Cocofiber

Processed from coconut coir raw material, in this case the export and domestic markets absorb large quantities of the product.

In this connection, PT Cipta Hassdy Indonesia, as one of the largest coconut coir suppliers in Indonesia, provides coconut coir export services to various countries. With the experience we have, we always produce quality products, and we always train our employees to produce our coconut products to get the best quality standards. We continue to develop employees to improve our business so that we can achieve our goal of becoming the best coconut coir supplier in Indonesia.

Coconut Charcoal

We produce coconut charcoal in a modern way with advanced technology machines and experts in the field of charcoal production. We make the best coconut shell charcoal from Indonesia, the best coconut charcoal 100% pure coconut shell without any chemical. One of the best coal sources in Indonesia.
