COMPANY PROFILE

PT. AQUILA PELITA INDONESIA

www.hawila-agro.com

Our Company

2018

The Beginning

Started from the humble beginning, we were a seller of essential oil locally with a name of “Hawila Essential Oil”.

2021

First Export Journey

Our first export shipment of essential oil to Singapore on February 2021.

2021

Elevated into a private company

Seeking the opportunity of B2B Export Business, we are legally under PT. Aquila Pelita Indonesia since 14 October 2021.

2022-present

The Acceleration

PT. Aquila Pelita Indonesia have been exporting Spice & Coconut Derivates & Essential Oil to over 8 countries.

PT. AQUILA PELITA INDONESIA

VISION

Our vision is to be the best leading company of spices, coconut derivatives and essential oil in Indonesia which provide value and quality to our customers.

MISSION

1. Networking with Indonesia's farmers and ensure the quality at its best because the foundation of our company's success is to **"Harvest with Life and Gratitude"**.
2. Help regional economies to develop and provide welfare for existing farmers.
3. Collaborate with other companies abroad to distribute our product around the world.

Our Core Value

01

Entrepreneurship

Means acting like we own the business, thinking outside the box, passionate, being creative, innovative, and seizing opportunity to grow.

02

Reliability

Means you can depend on us to do our job the best of our ability and we always provide the best to our customers and investors all the time.

03

Integrity

Means speaking with truthness and sincerity, acting with honesty and fairness, and behaving professionally and righteously.

04

Quality

We provide good products that we sell, deliver value including good services to our customers, and delivering good financial results that meet investor expectations.

Our Market

Middle East

We supply raw material of spices including clove, nutmeg and desiccated coconut in Oman, Dubai, and Bangladesh.

China

We supply Chinese Herbal Medicine raw material such as cardamom, nutmeg, and desiccated coconut to China.

Southeast Asia

We supply desiccated coconut, spices, & essential oil to Singapore & Malaysia.

Europe

We supply vanilla beans & nutmeg to Europe including Germany, France & Greece.

Our Products

Essential Oil

Coconut Derivatives

Spice

Coconut Derivatives

- Semihusked Coconut
- Coconut Peat Block
- Coconut Wood
- RBD Coconut Oil
- White / Black Copra
- Copra Meal/Pellet
- Desiccated Coconut

Semihusked Coconut

Semihusked Coconut is fully matured coconuts which husked to remove the coconut fiber. It's suitable for dry copra making, aseptic coconut water, desiccated coconut ingredients, coconut milk ingredients, etc.

Description : No Sprout, No Broken/Cracked, Fully Husked/Semihusked

Color : Fresh light brown to dark brown

Weight : 400-1500 gram

Packaging : 25-50 kg Waring Bag

Production Capacity : Min 75 MT

Cocopeat Block / Cocopeat Growing Bag

Cocopeat is also known as coir pith, coir fibre pith, coir dust, or simply coir, is made from coconut husks, which are by products of other industries that use coconuts. It's suitable to substitute soil because it's free from fungal.

Ingredients : 100% pure coconut fibre

Usage : Greenhouses, outdoor garden, hydroponics media

Size of Block : 30 x 30 x 15 cm / 100 x 15 x 3 cm / 100 x 20 x 3 cm

pH : 5.5 – 6.5

EC Level : 0.1 – 0.5 mS/cm or 1.2 – 2 mS /cm

Water Capacity per kilogram : 7 – 14 litres

Production Capacity : Min 100 MT /month

Coconut Wood/Timber

Coconut Wood/Timber has many applications as both structural and interior materials. The source of coconut timber we produce is from Sulawesi Island. The exotic motive of coconut wood is coming from the outer part of wood with an age of wood 60-80 years old. This wood has many general purposes such as pillars, trusses, rafting, furniture, window and door frames, floors, decking and floor joints.

Material: Coconut Wood

Drying Method: Sun Dry/Oven Kiln Dry

Moisture Content : Maximum 15%

Production Capacity : Min 18 cbm /month

Coconut Cooking Oil / RBD CNO

Coconut Cooking Oil is processed through a modern and hygienic process. Clearer, without using artificial flavoring and artificial coloring. Because it is more stable at high temperatures, Coconut Cooking Oil can be used many more times compared to other types of oil so it is more efficient.

Free Fatty Acid : 0.04 %

Peroxide Value : 0.24 meq O₂/kg

Color in 5 ¼" Cell (R) : 0.6

Odor : Normal

Packaging : Jerrycan / Steel Drum / Plastic Drum

Production Capacity : Min 40 MT /month

White Copra

Copra is dried flesh of coconut. White Copra is well known in Asia especially in India, Sri Lanka, Dubai for edible snack. There are three basic grades of copra. The lowest grade of copra has a bit black or yellowing color, and commonly used for the production of RBD Coconut Oil.

Production Capacity : Min 30 MT /month

Cup size Diameter : Max 10cm – 12 cm

Moisture : Max 5.5 %

Description : White color, no fungus, no hole

Packaging : Jute Bag 50 kg / Waring Bag 50 Kg

Copra Meal / Copra Pellet

Copra Meal / Pellet is the dried meat, or kernel, of the coconut. Coconut oil is extracted from it and has made copra an important agricultural commodity for many coconut-producing countries.

Ingredients : Coconut extraction meal

Usage : Animal feed for livestock

Moisture : Max 12%

Protein : Min 19%

Packaging : PP bag 35-50 kgs

Max Loading /20 ft : 15 MT

Production Capacity : 5,000 MT /month

Desiccated Coconut

Desiccated coconut is coconut meat which has been shredded or flaked and then dried to remove as much moisture as possible.

Production Capacity : Min 60 MT /month

Ingredients : 100% pure coconut natural

Usage : Cookies, cakes, pastries, desserts, puddings

Content Fat : $40 \pm 5\%$ / $50 \pm 5\%$ / $65 \pm 5\%$

Cutting : Fine / Medium / Millrun

Packaging : Inner polyliner and outer kraft paper / PP bag outer 7/25/50 kgs

Palm Kernell Expeller / Meal (PKE / PKM) +

Palm Kernel Expeller/Meal (PKE/M) by-product of the palm oil extraction process from the palm fruit. PKE/PKM is a stock feed of high quality containing high levels of crude protein and medium energy levels. It is completely safe to feed your cattle with this by-product and can be used as a supplement for most classes of livestock giving them great level of nutrient they need to grow healthy.

Moisture : Max 8%

Protein : Min 13%

Profat Content : Min 24%

Raw Fiber : 10-13%

Packaging : 50 Kgs Woven Bag / Bulk

Production : 2000 MT /month

Spice

Vanilla Bean

Vanilla beans have the most intense vanilla flavor and aroma that you will find. Inside each long, leathery, dark-brown pod, there are thousands of tiny black specks bursting with vanilla flavor.

Nutmeg

Nutmeg is the seed of the *Myristica fragrans* tree that's dried, ground, and used as a spice in many dishes, from baked goods to sausage seasonings, pots of braised leafy greens to jugs of eggnog.

White Pepper

White pepper is a spice produced from the dried fruit of the pepper plant, *Piper nigrum*, as is black pepper. It is usually milder than black pepper, with less complex flavor.

Black Pepper

Black pepper is the most popular spice and offers impressive health benefits. Black pepper is a staple for any kitchen, can be used to spice up soups, dips, and pasta dishes.

Cinnamon

Cinnamon is an aromatic spice that used to be found in fragrant perfumes and anointing oils during the medieval era. Nowadays, cinnamon is a great companion to coffee, cocoa, and cider.

Clove

Cloves are the aromatic flower buds from Maluku, Indonesia. Clove is commonly used as a spice, flavoring, or fragrance in consumer products, such as toothpaste, soaps, or cosmetics.

Vanilla Beans

Vanilla Beans is a spice derived from orchids of the genus *Vanilla*. It's suitable for ice cream ingredients, bakery ingredients, vanilla extract & vanilla powder ingredients. Vanilla Beans usually used for perfumery industry to make vanilla oil.

Type : *Vanilla Planifolia* & *Vanilla Tahitian/Tahitensis*

Moisture : 20 – 40 %

Length : Tahitian (12-15 cm) / *Planifolia* (16-25 cm)

Vanillin Content : 1.5 – 2.5 %

Packaging : Vacuum Plastic (customized) & Master Box

Production Capacity : Min 1 MT /month

Black Pepper

Black Pepper is a spice rough texture with a cracked and withered surface surrounding a tan inner seed. Once broken, they release a pungent aroma that can tickle the nose. The round spice has a mild musty aroma similar to wet hay with notes of citrus and fruit.

Moisture : Max 12%

Density : Min 500 g/L

Admixture : Max 1 %

Packaging : PP Bag 25-50 kg / Carton Box

Production Capacity : Min 40 MT /month

Nutmeg

Nutmeg is a spice made from the seed of the nutmeg tree (*Myristica fragrant*), a native Indonesian evergreen tree that is the source of two popular spices: nutmeg and mace. Nutmeg is the inner seed, while mace is the red, lace-like substance that covers the seed.

Origin : Maluku, Indonesia

Quality : ABCD / SS / BWP / Shelled Nutmeg

Moisture : Max 15%

Aflatoxin Content : Max 1 µg/kg

Packaging : PP bag 35-50 kgs

Production Capacity : PP Bag / Carton Box

Cinnamon

Cinnamon is a spice that is made from the inner bark of trees scientifically known as *Cinnamomum*. It is used mainly as an aromatic condiment and flavouring additive in a wide variety of cuisines, sweet and savoury dishes, snack foods, and tea.

Type : Stick & Broken Cinnamon

Moisture : Max 13%

Ash Content : Max 5%

Volatile Oil : 1 – 2.5 %

Packaging : PP Bales / Carton Box

Production Capacity : 30 MT /month

White Pepper

White pepper is a spice produced from the dried fruit of the pepper plant, *Piper nigrum*, as is black pepper. It is usually milder than black pepper, with less complex flavor. Both whole and ground white pepper are available.

Moisture : Max 15 %

Empty Grains : Max 5 %

Packaging : PP bag 50 kgs / Carton Box

Production Capacity : 30 MT /month

Clove

Clove are the aromatic flower buds of a tree in the family Myrtaceae, *Syzygium aromaticum*. They are native to the Maluku Islands (or Moluccas) in Indonesia, and are commonly used as a spice & tobacco ingredients, flavoring / fragrance in consumer products, such as toothpaste, soaps, or cosmetics.

Type : Lal Pari / Manado

Origin : Sulawesi/East, Java/Manado

Color : Dark Brown to Reddish Brown

Moisture : Max 12%

Stems : Max 2%

Inferior Clove : Max 2%

Packaging : PP Bag / Carton Box

Production Capacity : 50 MT /month

White Cardamom

White Cardamom are widely used in Asia for both sweet and savory dishes, particularly in the south. Both are frequent components in spice mixes garam masala and Thai curry pastes. Cardamom have a fresh aroma that adds zing to recipes. It enhances the flavor of stews and adds freshness to broths and stocks. It can be used to neutralize bad breath.

Type : Java White Cardamom

Origin : Java, Indonesia

Color : Light Yellow to Light Brown

Moisture : Max 18%

Admixture : Max 3%

Packaging : Inner Plastic + PP Bag / Carton Box

Production Capacity : 50 MT /month
