PT Sumber Air Hidup Sentosa

PT Sumber Air Hidup Sentosa not only excels in providing premium quality fruits, sugarcane, banana leaves, and other products but also ventures into the trading of charcoal in Indonesia.

We invite you to explore the world of premium charcoal products offered by PT Sumber Air Hidup Sentosa.

We understand the significance of quality and reliability when it comes to choosing the right charcoal for your needs.

PT Sumber Air Hidup Sentosa stands out as an exceptional choice. One of the key factors that make us stand out is our direct access to raw materials without involving any intermediaries. This ensures that the quality of our products meets your highest expectations.

We prioritize our customers' needs by offering customized charcoal products tailored to your specific requirements in terms of size and shape.

Our strategic factory location offers significant logistical advantages.

Being situated in a well planned area, we can efficiently manage the movement of our export goods, ensuring that your orders are delivered promptly and without any delays.
