Our Coconut plantation empowerd hundred of local farmers.

VISSION

To become your trusted global partner of RDB
Coconut Oil

...

MISSION

Building good relationship with business partners, government and local communities, due to make a better future together

OUR PRODUCT

RBD COCONUT OIL

RBD (Refined, Bleached, and Deodorized) coconut oil is coconut oil that has been processed and filtered multiple times to remove almost all of its natural ingredients, including color, odor, and taste. RBD coconut oil is typically more chemically stable and has a higher melting point than unprocessed coconut oil. It is commonly used in the food, cosmetic, and pharmaceutical industries. However, RBD coconut oil has fewer health benefits compared to unprocessed coconut oil.

Certificate of Analysis

Consignee : CV. Karya Persada Gemilang
Date of analysis : April 10th, 2023
Material : RBD Coconut Oil

Specification	Standards	Result	Unit	Inspection Standard
