# OUR PROCESS

---

## Mission

**To become a leading company that provides innovative and high-quality solutions in our industry while making a positive contribution to society and the environment."**

## Vision

- **Provide high-quality products or services that meet the needs and expectations of our customers.**
- **Foster innovation and product development to remain relevant and competitive in the ever-evolving market.**
- **Strengthen long-term relationships with our customers, partners, and suppliers based on trust and mutual benefit.**
- **Implement socially, ethically, and environmentally responsible business practices.**
- **Create an inclusive, diverse, and supportive work environment that promotes employee growth and well-being.**
- **Enhance operational efficiency and optimize resource management to achieve sustainable financial sustainability.**
- **Actively participate in community activities and make positive contributions to the surrounding community.**

## MAIN MARKET

For the time being, our main target is domestic, where we market our products within the country to meet market demand and to reach specific regions. This is also aimed at supporting the government's programs within the country to ensure that everyone can enjoy products that are highly needed in society. Our current targets include Surabaya, Yogyakarta, Semarang, Bandung, Jakarta, Lampung, Palembang, Medan, Aceh, and other regions in Indonesia. As for our goals, our target is international.

## OUR PRODUCTS

### Banana Leaf

**Banana leaf, often referred to as "daun pisang batu" in certain regions, is a significant part of various tropical and subtropical cultures, especially in culinary and ceremonial contexts. Here Banana leaves are versatile and culturally significant, serving various practical, ceremonial, and environmental roles. Their use in cooking not only enhances the flavor of dishes but also embodies a tradition of eco-friendly practices that have been passed down through generations.**

### The banana stem

**The "banana stem," often referred to as the "pisang batu" stem in certain regions, is an integral part of the banana plant, serving various culinary, medicinal, and practical purposes. The banana stem, or "pisang batu" stem, is a versatile and valuable part of the banana plant. Its culinary, medicinal, and practical applications highlight its importance in various cultures. The sustainable and environmentally friendly nature of the banana stem underscores its significance in promoting eco-friendly practices and contributing to a holistic approach to using natural resources.**

## WHAT WE DO

- Always communicate honestly and sincerely with customers. Avoid making promises or claims that cannot be fulfilled, and demonstrate that your company cares about the needs and satisfaction of customers.**
- Communicate regularly with customers, whether through email, social media, or other communication channels. Sharing updates on products, special offers, or relevant information strengthens the relationship.**
- If mistakes occur, admit them honestly and rectify them wisely. Customers appreciate sincerity and the company's sense of responsibility.**
- Offer transparent information about our products or services, including pricing, terms and conditions, and return policies. Transparency builds trust and reduces uncertainty for customers.**
