ABOUT COMPANY

PT Ghazi Sukses Eksporindo was founded in 2024, located in *Palembang City, South Sumatra Province – Indonesia*. We are committed to providing high quality products that support sustainable agriculture and public health.

We are an export company engaged in the distribution of high quality **organic fertilizer and **goat milk** products from Indonesia. With a commitment to sustainability and quality, we are ready to meet the needs of the global market.**

WELCOME **MESSAGE**

Best wishes,

I am proud and enthusiastic to welcome you to our journey in the world of exporting organic fertilizer and goat's milk products. As CEO of this company, I believe that our vision and dedication not only brings high-quality products to global markets, but also drives innovation and sustainability in the agricultural industry.

Our company, which was founded with a mission to empower farmers and improve the quality of agricultural products, has grown and developed to become one of the leaders in the export of organic fertilizer and goat's milk products. Every step of the way, we uphold our commitment to environmental sustainability, sustainable farming practices and product quality.

Our products are not only about quality, but also about positive impact on society. Our goat's milk, for example, is produced from farms that adhere to the highest animal welfare standards and processing processes that meet international food safety standards. We are committed to providing healthy, high quality products to our consumers around the world.

Our commitment to integrity and business ethics is the foundation of every decision we make. We value the relationships we build with customers, business partners and the communities in which we operate. We strive to be a company that is not only financially successful, but also provides a sustainable positive impact on the community and environment around us.

DWI SATYA
AFRIANTO

CEO OF COMPANY

VISION & MISSION

• **VISION**

“To be a leader in the export industry of organic products and goat’s milk in the global market”

• **MISSION**

- 1. Providing high quality organic products that support environmental sustainability.**
- 2. Fulfill consumer needs with healthy and nutritious goat milk products.**
- 3. Improving the welfare of local farmers through fair partnerships.**

OUR PRODUCT

Production Capacity: We have a production capacity of up to 250 tons/month or 80 tons/day, ensuring product availability to meet market demand.

2. Goat's Milk: Fresh milk that is rich in nutrients, good for health and easy to digest.

Production Capacity: We have a production capacity of up to 30 tons/month or 1 ton/day, ensuring product availability to meet market demand.

1. ORGANIC FERTILIZER -KURNIA GANIK

Kurniaganik is a quality organic fertilizer made from selected materials. Contains important macro and micro nutrients needed by plants, can be used for all types of plants, both flowers, fruits and vegetables to increase plant productivity.

Main Product

**Kurnia Ganik Granule
Sack packaging (40 kg)**

The characteristics of Kurniaganik fertilizer, which is now in granular form, is that it has a blackish brown color with an organic C content of at least 15%. Kurniaganik can improve soil structure and increase nutrients.

Water retention and absorption as well as enriching macro-micro nutrients, the use of chemical fertilizers contributes to the nutrients becoming more effective and efficient.
