

DOBBELTKLÆBER 756

Short description:

Solvent based acrylic adhesive without carrier.

Product data:

Adhesive: Solvent based acry
Liner: Brown bi-siliconized paper
Adhesive thickness: 0.050 mm
Adhesion to steel: 9.5 N/25 mm
Temp. resistance: 80°C; short period 130°C
PH-value: 6,6

Application:

Multipurpose unsupported solvent based acrylic adhesive applied to a double-sided release coated liner, especially suited for application in paper and cardboard industry, DIY, office, handicraft, and several other industrial uses. Excellent adhesion on various kinds of surfaces (paper, cardboard, cloth, leather, metal, wood, laminates...). The product is available on 1" core to be used with the appropriate dispenser. Also available on 3" core.

Features	Benefits
Solvent based acrylic adhesive	<ul style="list-style-type: none">• High adhesion• Maximum stability of adhesive structure rendered by glass fibre• High performance adhesion on various substrates• Excellent resistance to ageing
Transfer tape (no backing)	<ul style="list-style-type: none">• Extremely adaptable to irregular surfaces of application• Minimum thickness due to absence of backing• Versatile• Easier to use compared to conventional glues

Product shelf life and storage: 12 months, based on the product being stored at 23°C/50% relative humidity out of direct sunlight.
