

KINGSWAY PRIMARY SCHOOL'S PUPIL PREMIUM REPORT 2017-18

At KPS we allocate our entire school funding to activities that are most likely to have an impact on improving achievement for all. We use the funding we gain through the Pupil Premium grant to ensure a bespoke programme that meets the needs of these pupils more specifically. This provision is changed annually to ensure we reflect what is working well and avoid that which is not having the desired impact. Using the very latest research and our own internal knowledge, we carefully select what we spend the Pupil Premium allocation on every year being careful to ensure it matches the **current** needs of our **current** Pupil Premium pupils. Through the use of Pupil Premium we strive to close the achievement gap between those children who qualify and their peers and also provide them with strong pastoral support. Our aim is to also ensure that these children fulfil their potential regardless of the gap and that all our children in school make the necessary outstanding progress.

Pupil Premium (PP) received 2017/2018	
Total amount of PP to be used 17/18	£168,330 (£160,220 + £8,110 carry forward from previous year)

Barriers Identified at our school (2016 – 18)	
Attendance 	<p>The attendance of pupils who are Free School Meals is not as good as those who are not (9 percentage point's difference). If pupils are not in school, they cannot access the same learning as their peers and are likely to fall behind academically (DFE 2016 report).</p> <p>Action Required – ensure attendance is a high focus in any actions to raise attainment of pupils. Particular focus on those who are persistently absent.</p>
Resilience 	<p>Pupils entitled to PP often demonstrate less resilient behaviours and 'give up' when they find work more challenging. If attendance is also an issue then they are likely to have gaps that need to be caught up.</p> <p>Action Required – ensure sufficient extra teaching capacity within classes to support those pupils needing additional emotional and academic support. Maintain a highly qualified workforce that can deliver high calibre interventions such as 'Nurture', 'Thrive', 'Sand Play' and those interventions also related to SEN needs (approx. 50% of our PP pupils also have SEN needs).</p>
Support for families in Crisis or needing timely advice 	<p>This locality has a high need for family support however, supply cannot meet demand. It is therefore fundamental to the success of our pupils that we address this shortfall and ensure our families are as strong as possible.</p> <p>Action Required – offer timely support to families through our pastoral team (learning mentors) before they reach crisis and support families to develop and build on their own strengths.</p> <p>Provide additional structured conversations for parents twice every year therefore building better relationships with families.</p>
Inclusion 	<p>PP pupils do not attend clubs or residential visits as consistently as their peers. We need therefore to ensure that all pupils are able to participate in and experience new and challenging activities which support self-esteem, motivation and learning</p> <p>Action – As far as is practicable, ensure that financial constraints do not prevent a PP child from accessing opportunities on offer in school ie residential trips, clubs, resources for homework etc</p> <p>PP pupils often have SEN needs as well. We need to ensure resources are available to meet these needs which may be very specialised.</p> <p>Action – Purchase resources to support needs led teaching in classrooms</p>

Area of spending	Action	Cost
Attendance 	Attendance Improvement Officer to be appointed with a remit to: <ul style="list-style-type: none"> ✓ work on attendance every morning ✓ develop attendance rewards ✓ direct parents to support services where needed ✓ hold parents to account through Attendance Improvement Meetings Nurture Breakfast <ul style="list-style-type: none"> ✓ develop good morning routines ✓ provide less stressful start to mornings and 'smooth' transition into school ✓ provide emotional and social development support to those children who are anxious 	£11,828
