

# Learning Gems!

# *Gem Power*

**Ruby**  
Supporting others

**Sapphire**  
Keeping focus

**Amethyst**  
being courageous

**Emerald**  
Learning with a partner

**Diamond**  
Independent thinking

**Topaz**  
working together

# What we will do!

During the Autumn term, your class will be focusing on Diamond thinking only.

Your class will then focus on a new gem each half term.

# Diamond Thinking

*To achieve Diamond Power you need to...*

- Try to solve your problem independently rather than relying on an adult.
- Use your learning 'toolkit' to identify what you need to do when you are stuck.
- Use your talk partners/teachers to ask good questions to help move your learning on.

# This term...

Up until half term, you will focus on earning diamond power as a whole class.

You will decide on a whole class problem that needs to be solved. (for example, ensuring that the cloakroom is tidy each day).

Your class can earn one diamond per day (Maximum of 5 per week). When 5 have been collected in a whole week, you have solved the problem and move on to another.

# After Half Term...

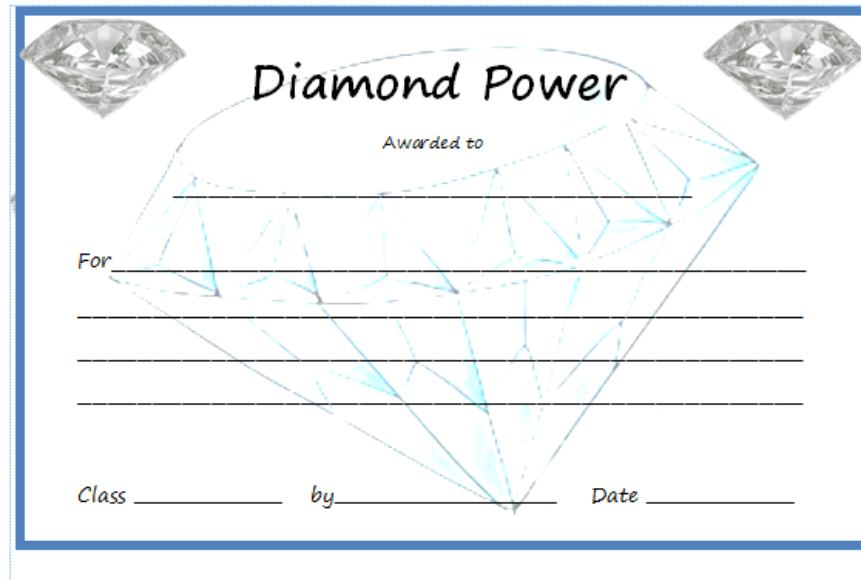

You will then focus on individual diamond thinking. If your teacher recognises that you have solved your own problem, you will earn a diamond.

At the end of the week these diamonds can be converted in to House Points.

# At the end of the week...

If your teachers have noticed a special moment where you have earned gem power, you could earn a gem certificate at the end of the week!

Our Diamond Power Certificate looks like this...

*Diamond Power*
