

20
Dear Year One,

30
I have travelled around the 7 continents and I am now worried. Do
you know that some species of our favourite animals are now
40
endangered? My friends work at WWF please look at google and
find out what they do. https://wwf.panda.org/our_work/wildlife/

50
It's sad news, we need to do something about it. Your task is to
choose an endangered animal and create a word bank of adjectives
60
describing how amazing they are. You then need to use your word
bank to make a fact file telling people all about your animal and why
70
we need to protect them.

80
You could be like Sir David Attenborough and film your own mini
documentary on a chosen animal and show your teachers.
