## Imagine you are a world famous YouTuber!

Imagine you are going to create a brand new short YouTube video to post to your channel about your biggest passion/interest.

You could do it about anything you want, for example: Horses, Harry Potter, Ancient Egypt, Lego, Minecraft, Dance, Flags of the World etc. The more passionate, interested and knowledgeable you are about your chosen subject, the more interesting your video will be and the more fun you will have!

Your task: Write a script for your YouTube video. You might want to split up your information into sections, for example:

Section 1: Introducing your topic to the audience and explaining why this topic is very important to you.

Section 2: Convincing your audience that you are a expert/professional on your topic (you can use your imagination here - for example, telling the audience you have a degree in 'Pokemon Studies' etc.)

Section 3: Delivering you information on the topic chosen (this will be your longest section).

Section 4: Summarising your information section and thanking the viewer for watching.

Extra challenge (optional): If you have the technology at home and a family member who is able to help you, why not have a go at recording your very own video and send it to us.
