

Year 5 First 48 hours work

Hello Kestrel and Owl classes,

We have put together a range of activities for you to choose from over these first 2 days.

Maths

In the activities you will find a chance to review prime numbers, composite numbers and nets of 3-d shapes. There is a prime numbers reminder poster in case you have forgotten what they are. Please complete at least one of the activities each day. If you are able to, please photograph what you have done and send it in to us on dojo.

Writing

In the activities for English writing you will again have a chance to revisit the skills we have been learning such as the use of ISPACE for fronted adverbials, use of colons to expand detail and use of modal verbs. There is also a chance to plan your own non-chronological report on a subject of your choice.

Please complete at least one of these activities each day and send it in for us to see.

Reading

We are sure you have a lovely selection of books to choose from at home and you will also have your class reading book and possibly a free choice book too. You will find a list of suggested tasks such as design a new front cover, write a summary of your current chapter or write a review for a book you are reading.

Please complete at least one of these tasks each day and send into us using Class Dojo.

Please ask if you are unsure of any of the tasks. They can be completed on the sheets (if you have a printer) or on some paper you have at home.

We would love to see a piece of work from everyone each day.

Mrs Daily, Mrs Lawes and Mrs Wilkins
