

We are learning to use expanded noun phrases in our writing.

An expanded noun phrase is where you have 2 adjectives to describe a noun. You need to have a comma between your 2 adjectives. For example tall, green trees and deep, blue sea.

1) Find the expanded noun phrases in this text:

In the middle of a dark, green forest there was a rickety, old house. Inside the house, there lived a little, sweet girl called Lily. Lily lived with her kind, weary grandmother and their fluffy, old cat. Lily was a helpful girl and often helped her grandmother with jobs around the house. Each morning, Lily made a warm, crispy toast for breakfast before feeding the cat her crunchy, brown cat food. After she finished all of her chores, Lily would rush outside to play in the huge, green garden where she spent hours playing lots of fun, magical games.

2) Use expanded noun phrases to describe objects in the picture:

3) Now put your expanded noun phrases into sentences.
