

History

Step back to a windy day in London. The year is 1666 and a great fire is spreading across the city. We are going to find out about:

- What London was like in 1666?
- The order of events that lead to the Great Fire of London
- Why it happened
- What happened next?

Later in the term, we will also be finding out about the sinking of the Titanic

DT

Become a designer extraordinaire ...

We will design and build structures, exploring how they can be made stronger, stiffer and more stable. We will also investigate The London Eye and explore the use of mechanisms within our own structures.

PE

Keeping fit is so important and, in multi-skills, we will master basic movements including running, jumping, throwing and catching. In gymnastics lessons, we will continue to develop balance, agility and co-ordination.

English

We will be using exciting hooks to stimulate and engage children into using their imagination to create their own descriptive writing. We will do this through writing:

- Character and place descriptions
- Instructions
- Stories
- Recounts

Fire and Ice

PSHE

We are so excited to be back at school but things are a little bit different. This term we are really going to focus on:

- well-being and mindfulness
- Keeping safe: at school, at home, outside and online
- An introduction to emotion coaching

Music

We will be listening to and appraising various classical composers. We will also be learning to perform as a class with a focus on singing different melodic parts and playing tuned and untuned instruments.

Maths

Transform yourself into a marvellous mathematician by gaining a secure knowledge of ...

- Number and place value
- Geometry — properties of shapes
- Addition and subtraction
- Multiplication and division

Science

We will become scientists by exploring a range of different materials. We will investigate which materials are suitable for different purposes and how they can be changed.

Art

In Art, we will experiment with creating different tones using various pencil gradients. We will then create pencil sketches of London buildings from before the Great Fire, with tonal shading.

Computing

We will be learning about computing systems and networks and how this links to IT around us. We will also focus on self-image, digital photography and online relationships and safety.

Geography

In Geography, we will explore modern-day London looking closely at its famous landmarks and other key geographical features. We will also compare London with Gloucester and understand some of the ways in which the city of London is important to the UK.

R.E

Answer this thoughtful question . . .

Who is a Muslim and how do they live?
