## Policy for Supporting Children with Medical Conditions who are Unable to Attend School

<b>Governor Committee Responsible:</b>	FGB	<b>Staff Lead:</b>	Attendance Officer
<b>Status</b>	Statutory	<b>Review Cycle</b>	Two Years
<b>Last Review</b>	February 2022	<b>Next Review Date</b>	February 2024

### Introduction

Kingsway Primary School works in partnership with pupils, parents/carers, medical services, other professionals and education providers to enable children and young people with medical needs who are unable to attend school to receive education in a hospital setting or at home.

Kingsway will be proactive in promoting the education entitlement of pupils on roll and in securing effective provision.

This applies to pupils unable to attend school for reasons of sickness, injury or mental health needs where a medical practitioner considers that a child should or could not attend school.

This policy is based upon the statutory guidance for Local Authorities 'Ensuring a good education for children who cannot attend school because of health needs', January 2013.

This comes under the category of 'educated offsite' when the child remains on the school roll and is educated temporarily in a hospital setting or through home tuition.

### Key Principles

The school recognises that children absent for medical reasons are entitled to continuity of education as far as their condition permits and acknowledges that it has a central role to play in securing and ensuring the continuity of education.

The education provided shall be of high quality and as broad and balanced as possible such that reintegration is achievable as smoothly as possible.

An Individual Healthcare Plan will be developed for the pupil.

## Responsibilities

Where a child is absent from school for medical reasons, the school will provide education tasks and resources for use at home when the child is well enough to engage in education.

When an absence is known to be more than 15 days or exceeds 15 days, then home tuition should be offered to the child. This may be provided through the school's resources or via the Gloucestershire Hospital Education Service (GHES).

Referral to the GHES can be made through the GCC website:

[www.gloucestershire.gov.uk/ghes](http://www.gloucestershire.gov.uk/ghes)

Where a child is admitted to hospital, the school will liaise with the teaching service to inform them of the curriculum areas the pupil should be covering during their absence.

Other agencies may be involved, such as CYPS. If so, a My Plan + document will be required.

Where possible, school will plan the educational programme of the pupil with the service provider, taking account (as appropriate) of the medical condition, treatment, effects of medication, therapeutic programmes provided and the duration of absence from school.

The school will aim to ensure maximum continuity of education of education for the pupil by providing:

- Medium term planning.
- Programmes of study/schemes of work.
- Appropriate resources.
- Information relating to the pupil's ability, progress to date, assessment data, SATs results and special educational needs.
- Where practical, the school will host review meetings as the pupil remains on the school roll and is therefore the school's responsibility.
- Where pupils have recurrent admissions or have a planned admission to hospital, the School will aim to provide a pack of work for the pupil to take into hospital with them.
- The school will foster communication and sharing of best practice between teaching staff at the school and the staff providing the education otherwise.

## Reintegration into the School

The school will work with providers of education, doctors, educational psychologists, relevant professionals, the parents/carers and the pupil themselves to plan a gradual and sensitively orchestrated reintegration into school.

The school will ensure that the pupils and staff in the school, who have maintained contact with the pupil who has been absent, will play a significant role helping the pupil to settle back into school.

The school will accept part-time attendance where pupils are medically unable to cope with a full day, until the pupil is able to attend for full school days.

The school will make arrangements for pupils with mobility problems to return to school, taking account of health and safety issues, organising risk assessment and seeking advice on lifting and handling procedures where necessary. The impact on staff will be taken into account and additional support may be required from the SEN devolved budget or via review and referral to the SEN panel.

Throughout the absence, the school will maintain contact with both parents/carers and the pupil. This will include invitations to events and productions at the school as well as regular communication.

Both the school and the education providers will support and advise pupils and their parents/carers, as appropriate, during the absence.

The school should expect to receive regular reports and assessment of pupil progress from the service provider during the pupil's absence and a folder of work on return to school.
