

PE

- Athletics
- Tennis
- Football

Science

In science, we will be looking at plants and growth covering the following areas:

- Naming different common and wild plants including evergreen and deciduous trees.
- Identifying the structure of different types of plants.
- Exploring how plants grow.
- Exploring how plants change during the different seasons.

Maths

This term, the children will develop their understanding of addition and subtraction and will be adding and subtracting numbers within 20. We will then move onto time and measurement and focus on telling the time to the hour and half past the hour.

Through their topic work they will also:

- Explore weight, capacity, time and length through a range of practical activities.
- Solving money problems in the classroom including the role-play areas.
- Solving word problems.

Computing:

Children will continue to develop their understanding of how technology is used by:

- Programming.
- Moving a BeeBot

DT

The children will develop their skills of joining and create a prototype for a piece of play equipment.

Blooming Marvellous Summer 2024

RE

Our theme in RE this term is:

- Creation.
- Caring for others.

History:

The children will learn about the life of Florence Nightingale and other key health professionals throughout time. They will compare similarities and differences between nurses of today and in the past.

English

Children will continue to develop their reading and writing skills through:

- A range of different stories including Beatrix Potter favourites and traditional tales.
- Expanding their knowledge of language techniques such as punctuation, adjectives, verbs and conjunctions.
- Non-chronological reports and fact files.

PSHE

- Understanding healthy lifestyles.
- Looking after and caring for plants and animals.
- Naming body parts and relationships.

Art:

The children will continue to develop their drawing and painting skills within cross curricular activities. Within explicit art lessons we will be focusing on textiles with the aim of creating puppets.

Geography

In geography we will be learning about:

- Exploring the features of our local area.
- Exploring maps of real and imaginary places.
- Learning about compass directions.
- Human and physical features of our
