# OLYMPIA (KATAKOLON), GREECE

The small, relaxed seaside village of Katakolon is situated on the western coast of the Peloponnese, Greece's largest peninsula. Best known for its dockside tavernas and small souvenir shops, Katakolon also serves as the gateway to one of ancient Greece's most notable historic landmarks, ancient Olympia. Archeologists theorize that the first Olympiad took place at the site in 776 BC; afterwards every four years panhellenic contests were held attracting athletes from all the Greek city-states. The Games also inspired the Olympic Truce, a time period when all hostilities were temporarily suspended in honor of the games. Located in a lush green valley the 5,000-acre archeological site was revived as a national park in the 1970's. Also known as the "Grove of the Sacred Altis", the landmark is the kick-off point of today's modern Olympic games, where the Olympic flame is lit and carried by a series of runners to the hosting city.

# DUBROVNIK, CROATIA

Nestled along the southernmost region of the Republic of Croatia lies one of the Mediterranean's best kept destination secrets: Dubrovnik. Called "the Pearl of the Adriatic," by the poet Lord Byron, the city is rich in history and natural beauty. With bays, beaches, steep cliffs and dense woodland areas, Dubrovnik's landscape is beautiful and unexpected. In 1990, the Republic of Yugoslavia achieved independence and the Socialistic Republic of Croatia was renamed into Republic of Croatia.

# SICILY (MESSINA), ITALY

is the largest island in the Mediterranean Sea. Its strategic location made it a prize for invasions and domination from the Greeks, Normans, Arabs and Byzantines. This is the reason why in Sicily you will see a mixture of cultures. Greek temples, Norman churches and castles, as well as Baroque cathedrals can be found. Just three miles off the coast of southern Italy’s mainland is the port town of Messina. This bustling town has a complex history with roots in Greek mythology but, because of an earthquake in the early 1900s, it’s a relatively young city architecturally. Sicily’s history and outlook is not that of its modern parent but of its foreign rulers. From the Greeks who first settled the east coast in the 8th century BC, through a dazzling array of Romans, Arabs, Normans, French and Spanish... who all left behind their substantial influences.
