

Alpine Power

The Peak of Thermal Efficiency

Alpine Power Wood Pellets embody the essence of purity and performance. Crafted from carefully selected wood, these pellets offer a perfect mix that guarantees low combustion residues and high thermal yield. They represent an ideal choice for those who seek efficient heating solutions without compromising on environmental integrity.

Key Features

- **Low Ash Content:** With Alpine Power, enjoy a cleaner burn and minimal ash production, simplifying cleanup and maintenance of your heating system.
- **High Heat Output:** Benefit from a high thermal yield that ensures your space is heated quickly and efficiently, providing comfort even in the coldest months.
- **Sustainably Sourced:** Made from select wood, these pellets are produced with sustainability in mind, supporting not only your home's warmth but also the health of our planet.

Efficiency Meets Eco-Consciousness

Alpine Power Wood Pellets are designed for those who prioritize both environmental sustainability and heating efficiency. Their low residue combustion means less waste and a smaller environmental footprint, while their high thermal output delivers the warmth your home needs.

For Your Warmth

Ideal for residential use, Alpine Power Wood Pellets are compatible with a wide range of pellet stoves and boilers. They provide a reliable and eco-friendly heating solution that keeps your home comfortable and your environmental impact low.

Alpine Power

*From the mountains,
warmth that embraces.*

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	$3,15 < L \leq 40$ mm
Diameter	6 mm (± 1 mm)
Ashes	$\leq 0,70\%$
Moisture content	$\leq 10,0\%$
Calorific value	$\geq 4,6$ kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m ³
Mechanical durability	$\geq 98\%$ weight
Packaging	15 kg bags and Big Bag

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
