

American Power

Robust Warmth, American Spirit

American Power Wood Pellets encapsulate the robustness and enduring spirit of American forestry. Crafted for those who value efficiency, reliability, and an eco-conscious lifestyle, these pellets are made from premium, sustainably sourced American wood. They are designed to deliver consistent, high-quality heating across homes and industries, embodying the strength and resilience of the American wilderness.

Key Features

- **Superior Quality:** Made from the finest American woods, these pellets offer a premium heating experience with consistent performance and high heat output.
- **Eco-Friendly Heating:** Embrace a sustainable lifestyle with pellets that burn cleanly, reducing emissions and supporting environmental stewardship.
- **Versatile Use:** Whether for residential heating or commercial applications, American Power Wood Pellets are engineered to provide optimal warmth and efficiency.

Sustainably Sourced, Nationally Inspired

American Power Wood Pellets are more than just a heating solution; they're a testament to the sustainable management and conservation of American forests. By choosing these pellets, you're not only ensuring a warm and comfortable environment but also contributing to the preservation of natural habitats and the promotion of renewable energy sources.

For All Your Heating Needs

Adaptable to various heating systems, American Power pellets are ideal for anyone looking to upgrade their heating experience. Their high calorific value ensures efficient fuel use, making them a cost-effective and environmentally friendly choice for keeping your space warm.

Choose American Power Wood Pellets for a heating experience that combines robust warmth with the enduring spirit and sustainability ethos of American forestry, ensuring your comfort with every pellet burned.

American Power

*Reliable strength,
comforting warmth.*

TECHNICAL FEATURES

Species Pellet of natural wood

Length $3,15 < L \leq 40$ mm

Diameter 6 mm (± 1 mm)

Ashes $\leq 0,70\%$

Moisture content $\leq 10,0\%$

Calorific value $\geq 4,6$ kWh/kg

Bulk density Bulk dens. ≤ 750 Kg/m³

Mechanical durability $\geq 98\%$ weight

Packaging 15 kg bags and Big Bag

0 745760 443451

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
