Bio Power

Eco-Efficiency in Every Pellet

Bio Power Wood Pellets are the essence of environmental consciousness and heating efficiency fused into one. These pellets are crafted for those who prioritize not only the warmth of their homes but also the health of the planet. Made from biomass materials that are responsibly sourced, Bio Power pellets represent a step forward in renewable energy, offering a cleaner, greener way to heat any space.

Key Features

- Sustainable Biomass: Utilizing biomass materials, Bio Power pellets are a testament to sustainable energy, reducing carbon emissions and supporting a healthier environment.
- High Energy Output: Engineered for efficiency, these pellets provide a high calorific value, ensuring that your home remains warm and comfortable with minimal environmental impact.
- Low Emission: With a focus on clean burning, Bio Power pellets produce fewer emissions than traditional heating methods, contributing to cleaner air and a better environment.

The Green Choice for Modern Heating

Choosing Bio Power Wood Pellets means embracing modern heating solutions that don't compromise on environmental values. These pellets are designed for eco-conscious individuals and businesses seeking to reduce their carbon footprint while enjoying efficient and effective heating.

Versatile and Efficient

Suitable for a wide range of heating systems, from stoves to boilers, Bio Power pellets are versatile and adaptable. Their composition ensures a consistent burn, providing reliable warmth and making them an ideal choice for those looking to combine eco-friendliness with high performance.

Bio Power

EN plus A1 ISO 17225-2 DK 304

EN plus A1 ISO 17225-2 IT 386

100% natural,
100% cozy warmth.

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	3,15 < L ≤ 40 mm
Diameter	6 mm (± 1 mm)
Ashes	≤ 0,70%
Moisture content	≤ 10,0%
Calorific value	≥ 4,6 kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m^3
Mechanical durability	≥ 98% weight
Packaging	15 kg bags and Big Bag

0 745760 443437

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
