Forest Power

Harnessing the Essence of the Forest

Forest Power Wood Pellets bring the tranquil strength and enduring energy of the forest into your home. Created for those who appreciate the natural beauty and sustainability of forest resources, these pellets are made from select wood, capturing the essence of the forest in every pellet. Forest Power is about more than just warmth; it's about bringing a piece of the forest's serenity and renewable energy into your living space.

Key Features

- Natural Wood Selection: Sourced from carefully managed forests, these pellets are made from wood that embodies the strength and purity of nature.
- High Heat Output: Forest Power pellets are engineered for a high calorific value, providing efficient and effective warmth to your home.
- Eco-Friendly Heating Solution: Embrace a heating option that contributes to a healthier planet. Forest Power pellets burn cleanly, reducing emissions and supporting sustainable forest management practices

A Commitment to Sustainability and Quality

Choosing Forest Power Wood Pellets means selecting a product that prioritizes both the environment and the quality of your home heating. These pellets are a testament to what can be achieved when sustainability and high-performance heating come together, offering a solution that benefits both your home and the planet.

Ideal for Eco-Conscious Homes

Perfect for various heating systems, Forest Power pellets offer versatility without compromising on environmental values. They provide a consistent, clean burn, making them suitable for anyone looking to reduce their carbon footprint while enjoying reliable and effective heating.

From the forest to your hearth, with love for the environment.

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	3,15 < L ≤ 40 mm
Diameter	6 mm (± 1 mm)
Ashes	≤ 0,70%
Moisture content	≤ 10,0%
Calorific value	≥ 4,6 kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m^3
Mechanical durability	≥ 98% weight
Packaging	15 kg bags and Big Bag

0 745760 443345

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
