LDG FOREST GROUP

Mountain Power

Elevated Warmth, Rugged Reliability

Mountain Power Wood Pellets embody the resilience and majesty of the mountains, designed for those who seek robust warmth and enduring efficiency. These pellets are crafted from high-quality wood sources, found in the heart of mountainous regions, providing a heating solution that stands strong against the chill of the harshest winters.

Key Features

- Premium Wood Sources: Harvested from the dense forests of mountainous terrains, these pellets are made from wood that is naturally resilient and potent in energy.
- Exceptional Heat Output: With a focus on high calorific value, Mountain Power pellets ensure your space is efficiently and effectively warmed, offering superior heat retention and output.
- Sustainable and Clean Burning: Committed to eco-friendly heating, Mountain Power pellets produce minimal ash and low emissions, supporting a cleaner environment while delivering powerful warmth.

The Strength of the Mountains in Your Home

Choosing Mountain Power Wood Pellets means bringing the unmatched strength and purity of mountain forests into your home. This choice reflects a dedication to not just superior heating, but also to the preservation and respect for natural habitats, ensuring a balance between human comfort and environmental care.

Versatile Heating Solution

Ideal for various heating appliances, Mountain Power pellets adapt seamlessly to your specific heating needs, whether you're using a traditional stove or a modern pellet boiler. Their reliability and efficiency make them a preferred choice for those looking to enjoy a natural, consistent heat source.

Solid as rock, warm as home.

TECHNICAL FEATURES

Species	Pellet of natural wood
Length	3,15 < L ≤ 40 mm
Diameter	6 mm (± 1 mm)
Ashes	≤ 0,70%
Moisture content	≤ 10,0%
Calorific value	≥ 4,6 kWh/kg
Bulk density	Bulk dens. ≤ 750 Kg/m^3
Mechanical durability	≥ 98% weight
Packaging	15 kg bags and Big Bag

0 745760 443420

The highest quality wood for superior heating power

The parameters indicated in the technical data sheet and shown on the back of the packaging correspond to the minimum guaranteed values of the **ENplus A1 certification**.
