SOLAR CONSTRUCTION LIGHT ES-G10.

DESCRIPTION:

Barricade Light Runs On Solar Power To Keep Protected Areas Visible

This LED Solar Barricade Light takes away the worry about dead batteries. Set and forget this low-maintenance, high-function barricade light for jobsite safety zones. Light features adjustable three-way output (on/off, steady burn or flash) that's visible from 3,000'. Flashes 60x per minute. High-impact, all-weather polyethylene case withstands UV rays for long life. Solar-charged battery operates five nights after charging just one day. Light turns on at dusk and off at dawn and swivels 360° on base for maximum visibility. Available in amber.
