## SPECIFICATIONS

### Lakeland Flame Resistant Coverall (Navy XXL)

#### DESCRIPTION:

FLAME RETARDANT

NAVY OVERALLS BOILERSUIT COVERALL

FYRBAN CMA (COTTON META-ARAMID) is based on 200gsm consisting of 93% meta-aramid, 5% para-aramid and 2% carbon fibre. Tougher and more resilient than flame retardant cotton offering improved flame and heat protection over a longer duration and at a lighter weight.
