A RELAXED COUPLE SHOOT

-If you're nervous about the prospect of having a camera pointed at you... Don't be... but if you are it's sometimes good to have a bit of practice.

-I'd love to meet you guys for a wander somewhere nice to take some nice pictures. So you know it's possible and it can be one less thing to worry about on the day.

"Lucy made us feel relaxed throughout, we had a laugh and a giggle, and we couldn't be happier with the photographs we came away with. I was wary at first but now I will be recommending them to everyone and I'm sure we will be more relaxed on the day as a result!"

I'D LOVE TO HEAR FROM YOU!

A wedding, to me, is all about spending an incredible day surrounded by all your family and friends. The photography is all about wanting as many of those precious moments to be captured so that you can re-live them again and again.

I would love to be the one to make your day last forever.

I look forward to hearing from you.
