Til læreren

Bogen ”MatematikKatten Spejlvending 6-9” er anden bog i serien om spejlvending og er lavet til elever, der oplever, at matematikken er i vanskeligheder. Elever som oplever, at matematikken er i vanskeligheder, har brug for genkendelighed og gentagelser. Bogen byder derfor på mange gentagelser samt genkendelighed, der gør denne bog anvendelig for elever der oplever, at matematikken er i vanskeligheder.

8-tallet kan i denne udgave ikke skrives forkert, men er med i bogen, da bogen også kan bruges til de elever, som skal arbejde med at skrive tallene.

Rigtig god fornøjelse med bogen.

Om Matematik i vanskeligheder

Matematik i vanskeligheder laver produkter samt undervisningsmaterialer til elever, som oplever at matematikken er i vanskeligheder. Jeg arbejder ud fra en positiv filosofi om, at det er matematikken, som er i vanskeligheder og ikke den enkelte elev.
