

NT-820MVU

NODIN 4-folded MEDEVAC Stretcher

NSN: 6530-25-160-2914

DESIGNED FOR THE WHOLE MEDEVAC CHAIN,
FROM POINT OF INJURY TO HOMELAND HOSPITAL

AVAILABILITY

Four folded for minimum
storage requirement.
Low weight

INTEROPERABILITY

NATO STANAG 2040
compliant design ensures
interoperability between
nations with NATO standard
stretchers/stretcher racks.

FLEXIBILITY

Telescopic handles to reduce
overall length of the stretcher
for transport in vehicles and
vessels with limited space.

Qualified for use on board
aircraft as well as vehicles
and vessels.

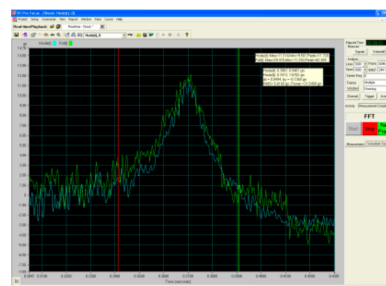

- Designed in accordance with NATO STANAG 2040 and STANAG 3204
- EU MDR Approved
- Four folded.
- Telescopic handles.
- Low weight and low storage volume:
 - 9,6 kg
 - 25x20x52cm.
- Rapid assembly without tooling.
- Pinch free hinges.
- Integrated 5+2 point harness with quick-connect buckles.
- Attachment holes for IV poles and other medical equipment.
- Fire retardant canvas in accordance with military and civil aviation requirements – FAR 25.853 Appendix F, part 1 (a)(1)(ii).
- Wide selection of additional equipment available for attachment of medical devices,

Passed static load test of 600kg
Passed drop test of 10g crash load with 140 kg patient

Shock duration 50 ms.

MEDEVACSTRETCHER

Approved for aerial evacuation enables patient to be transported throughout the chain, from land-vehicles to aircraft, on the same stretcher without having to be repositioned to another stretcher.

5 +2 POINT INTEGRATED HARNESS WITH QUICK CONNECTBUCKLES

The 5+2 point harness assures safe handling of the patient in steep terrain, stairs or even vertical lowering. The harness also facilitates a totally new and improved safety for the patient while transported on stretcher in vehicles/ ambulances.

Available supplementary equipment

NT-822MAD Stretcher mattress

- Compatible with harness
- Prevents heatloss and chafing

NT-851ABR Adjustable backrest

- Adjustable in 5 steps
- Compatible with harness and mattress
- Works as a hard surface when doing chest compression on the stretcher.

NT-827SEB Stretcher equipment bridge

- Can be mounted at bot hends, facing either left or right.
- Medical equipment can be attached with straps to slats in table

NT-880TSS Tilttable stretcher stand

- Tilttable in 4 levels both head up and down.
- Load capacity 150kg when tilted
- Just 9,8kg weight.
