

# Energy Performance Certificate

43, Chelsea Harbour Chelsea Cres  
London  
Greater London  
SW10 0XB

Dwelling Type: Mid-floor flat  
Date of Assessment: 11/12/2007  
Date of Certificate: 11/12/2007  
Reference Number: 9898-4908-6282-4933-8050  
Total: 250 m<sup>2</sup>

This home's performance is rated in terms of energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO<sub>2</sub>) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating the less impact it has on the environment.

## Estimated energy use, carbon dioxide (CO<sub>2</sub>) emissions and fuel costs of this home

|                          | Current                         | Potential                       |
|--------------------------|---------------------------------|---------------------------------|
| Energy Use               | 147 kWh/m <sup>2</sup> per year | 122 kWh/m <sup>2</sup> per year |
| Carbon dioxide emissions | 6.1 tonnes per year             | 5.1 tonnes per year             |
| Lighting                 | £204 per year                   | £102 per year                   |
| Heating                  | £526 per year                   | £486 per year                   |
| Hot water                | £156 per year                   | £134 per year                   |

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables on home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

Certification mark

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market.
