Stage Manager

Kelly Furtado

E-mail : kellyantoniofurtado@hotmail.com

Telephone Number : 0032 479.13.88.05

Stage dimension :

Opening : 8 to 10 meters (minimum 7 meters)

Depth : 6 to 8 meters

Hight: 3,5 meters

Set :

We will need a 4m20 pole to put the black sheet on it. The sheet is 8 meters on 4 meters. The sheet is very important for the show.

We also need a projector to screen the subtitles - the show is in French and comes with subtitles in English.

The rest of the set is brought by the company.

Minimum lighting equipment :

- 8 planar-convex projectors (face)
- 4 planar-convex projectors (behind)
- 4 planar-convex projectors (side)

- 1 "shower" light

Provide barn doors for the projectors or black aluminium tape (heat resistant).

One power bloc - 24 canals 2KW controllable by DMX.

One light switchboard with 24 canals and minimum 12 faders

Time for the light set-up : 1 hour. A pre-assembly of the light by one of your technicians would be nice.

Time for the light focus: 1 hour.

Disassembly time : 30 minutes with 2 people.

The total blackout of the room is essential.

Sound equipments :

1 Upstage wing P.A system

1 Downstage wing P.A system

1 « Madonna » microphone

1 mixing console

2 DI box + one mini jack stéréo to jack 6.35 (stage)

2 XLR from the DI to the mixing console

Cleaning material :

-1 bucket

-2 floor mops

-2 floor squeegees

Divers :

The attendance of one technician knowing the performance venue is needed during the assembly, disassembly and representation.
