

# MyMachine Slovenia Coordinator: Matej Kovacic

## What is your mission in MyMachine?

I am part of MyMachine because I love to educate children. My mission is to show teachers and people how to introduce STEAM activities to children and unlock their creativity.

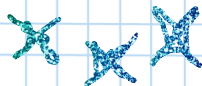

## Why is MyMachine important to you?

My job is essential, and I like my responsibilities a lot. At first, I was able to participate in MyMachine Slovenia as an expert supporting the students. After a couple of years, I was appointed MyMachine Slovenia Coordinator. Now I can focus on the management of the local partnerships of schools. I take pride in helping to show the creative potential of the children.

## What advice would you give to your 7-year-old self?

I would like to say to myself to put some more effort into mathematics.

## 3 SHORT FACTS

### How does a perfect day look like for you?

Building electronic devices with my nine-year-old son.

### Should you have an unlimited budget, where would you want to travel?

I dream typically of travelling or building electronic devices. For this reason, if I had an unlimited budget, I would like to travel to the International Space Station.

### Favourite place for thinking?

While spending time with my son.
