TOCCO

INTRODUCING UMBRO TOCCO V

The Umbro Tocco V is built for touch and targets the pass master. This player has more touches on the ball and key attributes are ball interaction and distribution, so touch is of vital importance. This player also covers greater distances over the duration of the game and therefore comfort and durability are key requirements to their footwear.

Optima leather, the Tocco V utilises the natural quality of leather whilst adding an extra addition of grip technology 'Optima'. This surface texture improves grip for that all important touch, whilst brand new 'Abrasaft' technology improves durability, optimising the material for the rigours and demands of the game.

A water resistant finish and stitchless vamp helps to reduce excess water uptake, whilst emboss flex grooves keep the leather flexible and comfortable, allowing the material to move in conjunction with natural movement of the foot. A 360° knitted tongue/collar and soft microfibre rear-quarter ensures that comfort runs throughout the entire upper.

Optima Leather

Advanced grip surface texture on the leather provides better first touch.

Abrasaft Technology

All new Abrasaft technology adds durability to the leather, allowing more game time and less distraction.

Water Resistant

The leather upper comes with a water resistant finish, maintaining optimum performance in all weathers.

360° Comfort Knit

360° Comfort knit tongue/collar surrounds the ankle, providing a snug and bespoke fit, adjusting to the contours of the foot and allowing breathability.

Pebax Powered Control+ Outsole

Dual density lightweight Pebax Control+ Outsole for maximum energy return. Stud position & geometry have been designed for maximum grip and endurance.

Wishbone Technology

"Wishbone" technology provides stiffness at the rear and arch of the foot while promoting flex at the forefoot. This ensures the boot works in conjunction with the motion of the foot.

Comfort Insock

The anatomical, low profile insock follows the contours of the foot for optimum comfort.

VELOCITA

INTRODUCING UMBRO VELOCITA MATRIX

The Umbro Velocita Matrix is built for speed and targets the player whose game is geared for pace in multiple directions. Short, sharp burst of energy and sudden changes of direction are key features and characteristics of the speed player and they need a boot which allows them to play without compromise. A boot which is lightweight and fits like a second skin allows the player to focus on the game.

Naturally, the foot adapts and changes shape during movement. It is important to create footwear which allows this natural range of motion without restriction. The Umbro Velocita Matrix utilises revolutionary ProWeave technology with an upper designed to stretch in 4 ways around the foot but also provide support during multi-directional and agile movements.

The unique one piece ProWeave upper construction seamlessly combines the tongue and main body, creating a singular 'second skin' fit. This adapts and stretches with the natural movement of the foot, whilst an internal support frame provides security for short, sharp, quick turns of pace.

As we strive for more sustainability, the new Umbro Velocita Matrix Pro ProWeave upper contains 85% recycled content.

The Umbro Velocita Matrix also features the Propulsion+ outsole designed for even more speed and agility. This outsole is designed with an integrated forefoot plate and 'support spine' which combine to provide stability and generate extra energy return per stride. The Propulsion+ outsole is 'Pebax Powered ®' and is manufactured using bio based materials. The unique Pebax® Rnew® formula uses castor oil derived from castor beans as the primary material in the production process. Inspired by sprint spikes, the Propulsion+ outsole has been designed with function first. Increased stud length improve traction whilst a higher toe spring is designed to enhance forward motion.

Pebax® Rnew® Propulsion+ Outsole

Features dual density Pebax® Rnew® providing energy return and stiffness. Longer studs with multi-directional configuration provide maximum traction in all directions.

ProWeave

Revolutionary one piece woven upper, singular upper design with 4 way stretch seamlessly adapts to the foot providing a 'second skin' fit.

Sustainability

In a continued effort to reduce our impact on the environment, recycled and bio based materials have been used within the upper and outsole.

Speed Insock

The anatomically contoured, low profile insock is lightweight without compromising comfort.

Outerstuff LLC - Terms & Conditions of Sale

For use in sales within U.S. and its possessions

The Customer's attention is drawn in particular to the provisions of clauses 2, 6.3, 7, 10 and 11 below.

1. FORMATION OF THE CONTRACT

- 1.1 The terms and conditions set out below (the "**Conditions**") apply to the Customer's order for the products (the "**Products**") set out in the Customer's purchase order form (the "**Order**"), to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing. The Customer waives any right it might otherwise have to rely on any term endorsed upon, delivered with or contained in any documents of the Customer that is inconsistent with these Conditions.
- 1.2 The Order and these Conditions together form the "**Contract**" between Outerstuff LLC ("**Outerstuff**") and the Customer named in the Order (each a "**Party**" and together the "**Parties**").
- 1.3 The Order constitutes an offer by the Customer to purchase the Products in accordance with these Conditions. The Order shall only be deemed to be accepted when Outerstuff notifies the Customer in writing that it has received the Order ("**Confirmation of Receipt**"), at which point the Contract shall come into existence. The Order may not be cancelled or amended by Customer once Outerstuff has issued the Confirmation of Receipt. **Customer agrees to the prohibitions set forth below regarding the sale and/or promotion of Products on or through Online Marketplaces.**

2. RESTRICTIONS ON ONLINE MARKETPLACES

- 2.1 Sales and/or promotion of Products through any Online Marketplace is strictly prohibited; provided that Customer may use its own proprietary online retail platform to advertise and sell Products if and only if Customer operates a brick-and-mortar retail store. If Customer breaches the foregoing prohibition, Outerstuff shall have the right to terminate any and all Contracts immediately without notice. Customer shall not sell any Product on its own proprietary online retail platform if Customer does not operate a brick-and-mortar retail store.

3. DELIVERY AND RISK

- 3.1 Outerstuff shall endeavor to deliver the Products on the delivery date specified in the Order (the "**Requested Delivery Date**"). Any dates quoted for delivery however are approximate only, and the time of delivery is not of the essence. Outerstuff shall not be liable for any delay in delivery of the Products that is caused by a Force Majeure Event or the Customer's failure to provide Outerstuff with adequate delivery instructions or any other instructions that are relevant to the supply of the Products.
- 3.2 *If Outerstuff is delivering the Products to the Customer:* Outerstuff shall deliver the Products to the delivery address set out in the Order or such other location as the Parties may agree in writing (the "**Delivery Location**"). "Delivery" shall be deemed complete on the completion of unloading of the Products at the Delivery Location.
If the Customer is collecting the Products from Outerstuff: The Customer (or its nominee) shall collect the Products from the collection address set out in the Order or such other location as may be advised by Outerstuff prior to delivery (the "Delivery Location") within three (3) Business Days of Outerstuff notifying the Customer that the Products are ready. "Delivery" shall be deemed complete on the completion of the loading of the Products onto the Customer's (or its nominee's) transport vehicle at the Delivery Location.
- 3.3 If Outerstuff fails to deliver the Products in accordance with the above, its liability shall be limited to the costs and expenses incurred by the Customer in obtaining replacement Products of similar description and quality in the cheapest market available, less the price of the Products (subject to the further limitations set forth in clause 9.3 below). Outerstuff shall have no liability for any failure to comply with the foregoing delivery terms if and to the extent that such failure is caused by a Force Majeure Event or the Customer's failure to provide Outerstuff with adequate delivery instructions or any other instructions that are relevant to the supply of the Products.
- 3.4 Any price quoted by Outerstuff (including in any price list and/or Confirmation of Receipt) does not include the cost of delivery or transportation, unless otherwise explicitly stated in the Confirmation of Receipt or agreed in writing with Outerstuff.
- 3.5 Risk in the Products shall pass to the Customer upon completion of Delivery.

4. ACCEPTANCE

- 4.1 *If Outerstuff is delivering the Products to the Customer:* If the Customer refuses or fails to accept delivery of the Products within three (3) Business Days of Outerstuff delivering the Products to the Delivery Location, then, except where such failure or delay is caused by a Force Majeure Event or Outerstuff's failure to comply with its material obligations under the Contract, delivery of the Products shall be deemed to have been completed at 0900 EST on the third Business Day after the day on which Outerstuff delivered the Products to the Delivery Location.
