# *EGC Monthly : 2022 – Conclusions I.*

- *The 2021 Monthlies had a total of 311 players or an average of 26 players/monthly (2021; 347 player or 29 month).*
    - *So we lost about 3 players/monthly over the past year!*
  - *All Monthlies in 2022 were played with the same split of: Cat. I/Cat. II = 23.9/24.0*
  - *The Cat. I/Cat. II split of 23.9/24.0 for all Monthlies resulted in:*
    - Cat. I players = 158 or 51 %.*
    - Cat. II players = 153 or 49 %.*
  - *Suggest to keep this split for 2023 Monthlies, at least in the beginning of the year: Cat. I/Cat. II 23.9/24.0*
- 
-

## *EGC Monthly : 2022 – Conclusions II.*

- Just to show the Hard Core of our Monthly players, “based on age”! Nobody under 50 years played in January, two – yes two, played in February 2022.*

- This graph strongly reflects EGC’s future! Age, and only 18 and 20 Monthly players in January/February 2022.*
