41	Alan Thirkettle	19.3	ESTEC C	Netherlands	5	12:06	DNF	DNS	DNF

Who had the advantage on the course: high or low-handicap golfers? The results suggest that even the 46 shots that a 36-handicapper received were not over-generous in practice. In general, the lower handicap players scored higher, despite getting many fewer shots than the players of high handicap.
