

MAI[®] 4EVERBUSINESS

MAN ASSISTING INNOVATIONS

GOOD JUST ISN'T GOOD ENOUGH

MAI® 4EVERBUSINESS

WE HAVE A WEAKNESS FOR STRENGTH

The MAI®4EVER BUSINESS is an innovative mortar mixing pump developed especially for commercial users.

Whenever hard-to-work with materials, long conveying distances and/or high delivery pressures are involved, the MAI®4EVER BUSINESS is the ideal solution. If you think logical operation, easy cleaning and trouble-free maintenance are important, this machine will suit your needs.

THE LIMITS OF WHAT IS POSSIBLE HAD BEEN REACHED - SO WE WERE FORCED TO MOVE THEM

- Working pressures of more than 40 bar
- Hose lengths of up to 60 meters
- Easy cleaning thanks to the fully plastic-laminated mixing zone
- Outstanding mixing quality thanks to a patented feed mixing zone and a completely new water injection system
- High added value thanks to the use of galvanized steel parts, stainless steel components and high-quality three-dimensionally crosslinked plastics
- Constant consistency of material thanks to innovative water proportioning

STRENGTH IS NOT OUR ONLY STRENGTH

The strength of this innovative mixing technology are most obvious:

- During renovation work
- When processing special types of flooring plasters
 - During injections
 - During backfill work

POSSIBLE USES

The following materials can be mass processed with the MAI®4EVER BUSINESS:

- Exterior renderings (up to grains of max. 4 mm)
- Interior plasters (lime-cement based)
- Floor coatings
- Concrete repair materials
- Fiber reinforced, difficultly mixable dry materials
- Anchoring mortar
- Reconstruction and renewal stuff

ACCESSORIES

- Silo delivery hood (The MAI®4EVER BUSINESS can be directly feed from the silo.)
- Injection hood (The material is loaded by means of a pneumatic conveying unit.)
 - Injection pressure switch (Variable between 0 and 16 bar, 0 and 25 bar or 0 and 40 bar.)

TECHNICAL DATA

Operating voltage:	400V/3/PE/50Hz
Nominal power:	7,8 kW
Fusing:	32 A
Delivery rate:	6 to 35 l/min
L x W x H:	175 x 71 x 134 cm
Filling height:	95 cm

WEIGHTS

Transport weight, basic unit:	144 kg
Drive unit:	68 kg
Pump with pump flange:	26 kg
Compressor (option):	26 kg
Total weight:	280 kg

Excellent mixing quality due to the patented conveyor mixing zone and completely innovative water injection.
