HOT GALVANISED AND EASY-CARE

MAI® 4EVERLIGHT

MORE AIR TO WORK WITH

As universally useful as a Swiss Army knife, the MAI®4EVER LIGHT can effortlessly mix, pump, inject and spray dry as well as wet materials. In line with the modern energy-saving trend, the full-surface hot-galvanised universal mixing pump is particularly well suited for grouting and injection work on deep geothermal boreholes. The integrated air system as a standard feature also allows the transport and spraying of pre-mixed construction mortar for renovation or plastering work. Another decisive advantage of this machine is the enlarged mixing zone, which ensures that the loaded material is optimally mixed.

MAI®SPEED-CLEANING

Thanks to the intelligent design - one motor for mixing, pumping and transporting - the MAI®4EVER LIGHT can be cleaned and put back into operation in record time. Like all products from our company, the MAI®4EVER LIGHT is very easy to operate and - thanks to the removable pump component / motor - also very easy to maintain.

GERMAN-AUSTRIAN WORKMANSHIP

The MAI®4EVER LIGHT is made of hot-galvanised materials for maximum corrosion protection. Typical areas of applications for our highly durable mixing pump:

- Injection work in geothermal applications (e.g. for deep geothermal boreholes)
- Filling work and injections in tunnel and well construction
 - Surface coatings
 - Concrete repair work
- Processing of cementitious materials

THE ADVANTAGES AT A GLANCE

- Quality product - German-Austrian workmanship
 - Easy to operate and quick to clean (MAI®SPEED-CLEANING)
- Optimal material processing with consistent mixing quality
 - Highly durable: Hot-galvanised design - outstanding corrosion protection
 - Low transport dimensions and weights
 - Emergency power operation with only 10 kVA

TECHNICAL DATA

Operating voltage:	1x230V/50Hz or 3x400V/50Hz
Nominal power:	4,2 kW or 4,5 kW
Surge protection:	16 A or 32 A (only construction power distributor with RCCB protection)
Delivery rate:	14 to 18 l/min
L x W x H:	180 x 60 x 95 cm
Filling height:	95 cm
Total weight:	160 kg
