

## CLOFFUY - update 2 - supplement to Checklist of the Freshwater Fishes of Uruguay.

Stefan Koerber<sup>1</sup> & Thomas O. Litz<sup>2</sup>

<sup>1</sup> Friesenstr. 11, 45476 Muelheim, Germany, pecescrillos@koerber-germany.de

<sup>2</sup> Friedhofstr. 8, 88448 Attenweiler, Germany, pecesuruguayos@aol.com

### Remarks on this update

Since the publishing of the first update to CLOFFUY several interesting papers have been published which in total contain 12 changes. Two species from Characiformes and Siluriformes have been synonymized and three new cichlids have been described, making to the total number of known freshwater fishes from Uruguay rise by only one to 299. The remaining changes are due to new combinations after assigning species to a different genus.

	CLOFF UY	update # 1	update # 2	total
Rajiformes	2			2
Acipenseriformes	2	1		3
Clupeiformes	4			4
Cypriniformes	1			1
Characiformes	90	2	-1	91
Siluriformes	103	15	-1	117
Gymnotiformes	9	2		11
Atheriniformes	6	1		7
Cyprinodontiformes	28	-1		27
Synbranchiformes	1			1
Perciformes	28	1	3	32
Pleuronectiformes	3			3
<b>total</b>	<b>277</b>	<b>21</b>	<b>1</b>	<b>299</b>

The aim of this list of species of freshwater fishes from Uruguay is to provide an updated supplement to the 'Checklist of Freshwater Fishes of Uruguay (CLOFFUY)' published by Litz & Koerber (2014).

Only those species are listed here that have not been included in that paper and the subsequent updates or which have undergone systematical changes since then. Changes in this sense may be new species, synonymies, re-validations, new generic combinations etc., every factor which might modify the data published at present.

This list is not a publication in the sense of the 'Code' (ICZN) and expressions as 'new species', 'new combination' etc. are only used to highlight changes in comparison with the original CLOFFUY.

'NEW' after species names indicates that this record has not been included in previously published updates. 'Info' provides hyperlinks to the individual species accounts in [www.pecescrillos.de](http://www.pecescrillos.de), usually with figures and some data from the respective publication.

class           **A C T I N O P T E R Y G I I**
