

THE NORDINGRÅ REGION

We are located in the heart of Nordingrå, in the middle of the UNESCO High Coast World Heritage Site and are surrounded by 52 mountains, 52 lakes and 52 villages and a stone's throw away from the sea. We want to draw particular attention to the welcoming atmosphere and genuineness of this area that we once experienced as tourists – that feeling has only been strengthened since we made the move to live here permanently.

- The area has several sightseeing highlights such as old fishing chapels (Barsta, Bönhamn, Fällsvik, Norrfällsviken) and Nordingrå Church on the Vågsfjärden inlet.
- The amazing outdoor museum Mannaminne in Häggvik was created by the artist Anders Åberg, who spent his childhood summers here at Pelle Åbergsgården.
- The nature reserves Rotsidan and Norrfällsviken
- The Högbonden Lighthouse that can be reached by boat from the fishing villages of Bönhamn or Barsta.
- The World Heritage Trail, a hiking trail that is over 100 km long that is maintained by volunteers who live in the area.
- Själandsklinten Hilltop Cabin and the highly praised Whiteguide Restaurant Gårdsbutiken down below. Gårdsbutiken is open during the summer months.

All these sightseeing highlights are within a short distance of Pelle Åbergsgården. Nordingrå has its own updated website where you can read about the history and activities available in each individual village. Read more at www.nordingra.nu

Opening times for restaurants vary depending on season. During the busy summer season, everything is open for business. During the low season, we can help you out with suggestions for outings and outdoor activities. We are open for guests all year round.

Mannaminne in Häggvik is one of the most popular places to visit in the area and was created by Anders Åberg who spent his childhood summers here at Pelle Åbergsgården. The hiking trail Björnåsleden runs between Pelle Åbergsgården and Mannaminne and will take you there by foot. On the first floor of the Agriculture Museum at Mannaminne, you will find a miniature model of Pelle Åbergsgården made by Anders Åberg. Read more about [Mannaminne](#) here.
