

"Had it with ice and a slice of lemon and it was superb. Your product is complex, interesting and nicely 'grown-up'. A real advance on anything else out there"

- David Gluckman, Legend within the spirit industry

GNISTA - the first non alco spirit truly resembling a fine spirit

The spirit of the future is here! Gnista has been made possible through a unique combination of modern gastronomy, food tech and classic spirit making techniques, where distillation, brewing and barrel ageing are central. It's crafted by hand and in small batches in Skåne, Sweden.
