# Nano | Series

Innovation is key to development and growth.

At **PrimeBlade** we take such truths to heart and proudly offer our world-class Nano series products.

The **Nano** family is a unique range of doctor blades with enhanced properties, produced using our patented Nano treatment. The process induces changes in the steel that provide reduced wear and thus longer lifetime, as well as improved surface quality. This is achieved in an environmentally friendly and safe process, free from the hazardous chemicals typically used for other products.

**Nano blades** made from three different premium quality Swedish steel.

The Nano blade types have been tailored to meet the demands from our customers with regards to blade lifetime, print quality and ease of use.

## **PrimeBlade Nano series advantages:**

- Produced from recycled steel
- Fully recyclable after use
- Environmentally friendly treatment, free from hazardous chemicals
- Long-life solution, less waste in printing
- Anilox friendly
- Controlled process

**Unique patented technology.**
