

VIGTIG INFORMATION

Push-notifikationer erstatter tekst-/SMS-beskeder

Fra den 30. november 2023 vil SMS-/tekstadværsler fra et Greenline blødgøringsanlæg blive erstattet med push-notifikationer. E-mailunderretninger påvirkes ikke af denne opdatering.

Alle brugere skal:

Opdatere EcoWater Systems WiFi Manager-appen. Ved brug af Android til version 1.9.9, tilgængelig i Play Butik og ved brug af iPhone til version 1.24.0 i App Store. Hvis du ikke har indstillet din app til automatiske opdateringer, skal du gøre dette manuelt.

Herefter skal du logge ind via din browser på <https://wifi.ecowater.com/Site/Login> og markere afkrydsningsfelterne "Push-notifikationer" igen i henhold til dine præferencer i afsnittet "Alert Preferences".
